

Interviewed by the board, and he would like to review the pollution program to determine if they would comply with the city's ordinance.

The city originally planned for the city engineer to do the job for the commission, but the city has been informed, so the mayor "arranged" for the city attorney to advise.

His motion was accepted unanimously.

The air pollution expert is an

### Capt. Vilga Honored At Language Institute

Capt. Joseph F. Vilga, whose wife is the former Miss Sharon Metcalf of Granite City, last week received the DLIWC Certificate of Achievement for outstanding scholarship work at the west coast branch of the Defense Language Institute, Presidio of Monterey, Calif.

The certificate was presented during graduation ceremonies for 175 officer and enlisted Army graduates of the Vietnamese language, who recently completed intensive courses of instruction in special Vietnamese classes. The institute, where all branches of the armed forces are trained, is the largest military language school in the free world.

Capt. Vilga, a graduate of Carnegie Institute of Technology, Pittsburgh, Pa., Stanford University, Stanford, Calif., received his army commission through the ROTC program in 1960 while at Carnegie Institute. He also received his bachelor and master degrees in engineering. Previously, Vilga served at the Granite City Army Depot, in France, Germany and at Stanford University.

### General Steel Promotes Edwin L. Marmion

General Steel Industries, Inc., announced this week the appointment of Edwin L. Marmion as district manager-sales, effective Jan. 1.

Formerly sales engineer, Marmion will continue his headquarters at the General Sales offices of the corporation at Granite City.

### Emergency Repairs for Two GC Fire Pumps

Emergency repairs to pumps on two Granite City fire trucks are in progress, and the 1952 model assigned to the main station on Madison avenue is to be returned from the repair shop this week.

The other pump needing repairs is at the West Granite station. Chief Earl Fronbarger and council members Monday night the West Granite truck still can be used.

He added that the city has an agreement with the Granite City Army Depot to assist in fire fighting in the event of a breakdown of city equipment.

### No Alarms Outside City

Fronbarger added that while

## 3 Depot Workers Nominated for '65 U. S. Civil Service Employee Award

Three Granite City Army Depot employees, two of whom reside in the local community, are among 36 nominees selected to compete for three "Federal Civil Service Employees of the Year" awards. It was announced this week by St. Louis Postmaster Claude I. Bakewell, awards program's general chairman.

The local nominees are Thomas Arthur Burns, Rural Route One, Box 15, Granite City, Mrs. Thelma M. Peterson, 3222 Princeton drive, and Mrs. Beulah C. Tripp, 214 N. Jackson road, Mascoutah, Ill.

Winners will be announced at the 11th annual awards banquet on Jan. 15, in the Khorsan Room of the Chase Park Plaza Hotel, St. Louis. The principal speaker will be John A. Carver Jr., Under Secretary of the Interior, Washington, D.C.

More than 170 federal installations and offices, comprising 30,000 employees, are located in the two-state metropolitan area, which the contest covers. To assure fair selection in all job categories, an outstanding nominee is chosen in each of three divisions:

### Three Divisions

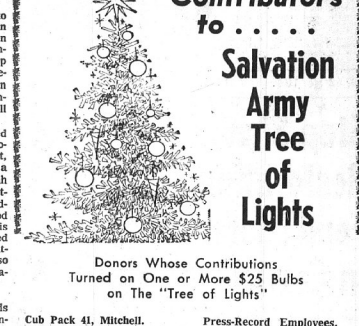

Administrative services, including clerks, messengers, "blue collar workers," and others in a lower income bracket; managerial and technical, involving managers, technicians and staff specialists in the middle and upper salary brackets; and professional and scientific, taking in such positions as physicians, lawyers and scientists.

MRS. PETERSON

THOMAS BURNS

MRS. BEULAH TRIPP

An automotive mechanical foreman at the local Army depot, Burns has been in federal service for more than 22 years. He has received numerous commendations for outstanding work and is widely-known for preventive maintenance "know-how."

Because of his maintenance and safety knowledge, Burns was a two-time named to command maintenance management inspection teams of the U. S. Army Supply and Maintenance Command.

He is active in Scottish Rite, Ainslie Shrine Temple and other groups connected with the Ma-

sonic order. Burns also plays an active role in furthering causes at the Shrine's Hospital for Crippled Children, the Burns Institute for Children, which specializes in caring for youngsters with severe burns and other similar projects.

Accounting Supervisor Because her work always exceeds the quality and quantity expected, Mrs. Peterson, a supervisory accounting technician in dystrophy and other charitable groups. She has been enrolled in the depot, has received many commendations and fast promotions. According to her superiors,

she constantly looks for and implements management improvements in her job. She has been employed at the Depot for 15 1/2 years.

Married to Robert H. Peterson, a Dow Chemical Co. foreman, Mrs. Peterson is a Sunday school teacher and a leader in various activities at the Third Baptist Church. She devotes many hours to the Heart Fund, Muscular Dystrophy and other charitable groups. She has been enrolled in the depot, has received many commendations and fast promotions. According to her superiors,

Mrs. Tripp was transferred to the Granite City Army Depot in April 1965 after serving for ten years with other federal agencies. An accountant, Mrs. Tripp received a bachelor of art degree in business administration from McKendree College, completing her education while still employed on a full-time basis.

Active in Cub Scout work, Red Cross, PTA, Philharmonic Society and Community Council, Mrs. Tripp also serves as a board member of the Mascoutah public library. She is the assistant Sunday school superintendent at Calvary Assembly of God in Belleville, where she also is teacher and pianist. Recognized on numerous occasions for outstanding work, Mrs. Tripp also has received several commendations.

### Awards Committee

Winners of the 1965 awards will be selected by a distinguished citizens' committee headed by Aloys P. Kaufmann, president of the Metropolitan St. Louis Chamber of Commerce. Others on the panel of judges include the Most Rev. George J. Gottwald STD, auxiliary bishop of the St. Louis Archdiocese.

Judge Theodore McMillan of the Juvenile Division, City of St. Louis Circuit Court; Major General Lawrence C. Adams Jr., adjutant general for the state of Missouri; and Mrs. Frank Freeman, an attorney and associate counsel for the St. Louis Housing Authority, who was appointed by President Johnson to the U. S. Civil Rights Commission, Illinois University.

## Emergency Repairs for Two GC Fire Pumps

Emergency repairs to pumps on two Granite City fire trucks are in progress, and the 1952 model assigned to the main station on Madison avenue is to be returned from the repair shop this week.

The other pump needing repairs is at the West Granite station. Chief Earl Fronbarger and council members Monday night the West Granite truck still can be used.

He added that the city has an agreement with the Granite City Army Depot to assist in fire fighting in the event of a breakdown of city equipment.

### No Alarms Outside City

Fronbarger added that while

the equipment is in need of repair, it has been called in all areas outside the city limits. When equipment is sent to outlying areas, a radio contact is maintained.

He explained the 1953 model pump at West Granite can be kept in service until the 1952 pump returns from the repair shop. Fronbarger stressed the city's need for a standby pump to relieve the emergency condition that arises when there is a breakdown in equipment.

Council members also discussed the conditions of the main and West Granite station houses.

### Repairs to Fire House

Authorization was granted for

several solar screen blocks to be replaced at the main station at a labor cost of \$50 to \$75 with the city to furnish materials.

An inspection of the main building at 23rd street and Madison avenue also is to be undertaken to determine the cause of cracks in the masonry walls.

No recommendation was made Monday night on the final payment for the new fire house in West Granite where roof repairs were needed last week.

### Medicare Program to be Given Next Monday

New social security changes and provisions of the Medicare bill will be explained at 7 p.m. Monday during a special meeting to be held in Hall 3, in the Labor Temple, 2044 State street. Senior citizens and other interested persons are invited to attend the open session, sponsored by Cooks and Waitresses Union, Local 461.

Social Security Bureau representatives from the East St. Louis office will answer questions and discuss registration procedures for those eligible to participate in the Medicare program. Inadvertently, the meeting previously was announced for earlier this week.

Huckla, with more than 35 years of experience in the engineering department, is retiring after 36 years and was a tin house shear line operator. Kier-

EVANGELIST H. R. Schuetz of Jamestown, N. D., who will be featured in "The Gospel in Magic" services to begin Sunday at Central Free Methodist Church, 22nd and State streets.

### Evangelist-Higher To Give Services Here

"The Gospel in Magic" will be featured in a series of evangelistic services beginning Sunday at Central Free Methodist Church, 22nd and State streets, and continuing through Jan. 9.

The services are to be held each evening at 7:30 and at 10:30 p.m. on Sunday mornings. The evangelist will be Rev. H. R. Schuetz of Jamestown, N. D. Rev. James H. Eldridge, pastor of the church, has invited the public to attend.

### 5 GC Steel Employees Retiring in December

Five veteran Granite City Steel employees are among December retirees, the firm announced today.

They are Walter Roethemeyer, 59, of 1541 St. Clair avenue; James Kosick, 56, of 1916 Ellipse street, Madison; Frank H. Huckle, 57, of 889 Bend road; Elmer Toney, 54, of Rural Route One; and Lohar Dierstein, 65, of Altan.

Roethemeyer, with the firm more than 35 years, was employed in the tin house his entire career. Kosick, with 29 years of service, was in the tin house shear unit where the department went down.

Huckle, with more than 35 years of experience in the engineering department, is retiring after 36 years and was a tin house shear line operator. Kier-

### John Bradley, 65, Collapses at Home, Dies

John R. Bradley, 65, a railroad employee, collapsed after a Tuesday morning when he suffered an apparent heart attack while eating breakfast with his wife, Mrs. Gladys M. Bradley, at their home, 2525 Grand avenue. An ambulance was summoned and he was pronounced dead upon arrival at 6:50 a.m. at St. Elizabeth Hospital. An inquiry is pending.

Mr. Bradley was preparing to leave for his job as a machinist at the Venice roundhouse, where he had been employed for a number of years with the G.M.O. Railroad. He was a member of the International Association of Machinists, Local 266, and the First Baptist Church. Mr. Bradley was born in Roodhouse, Ill., and had resided in Granite City for 31 years.

Besides his wife, he is survived by one daughter, Mrs. Clifford (Ruth) Hall of Granite City, a son, Richard Bradley of Hillsboro, Mo.; and six grandchildren.

Funeral services were held at 10 a.m. today. Arrangements are given elsewhere in this issue.

## Farm Column By IRUMAN W. MAY Madison County Farm Adviser

Shelters For Cattle Cost of housing and bedding is causing many farmers to take a closer look at long-accepted ideas of shelter beef cattle need in mid-western feedlots.

The recent unprofitable position of beef feeders is creating a more conservative attitude toward investments, according to Roy N. Van Arsdale, USDA, farm resource economist at the University of Illinois. Farmers are questioning what is essential for a functional beef-feeding system and what is merely the result of custom or convenience.

Several Madison county farmers recently going into the beef cattle business have reduced their initial costs by investing only small amounts in shelter, rather than expensive buildings.

Investment per head space averages \$25 to \$40 for an open-front shed when the usual 30 square feet of shelter space is provided for each animal. Costly and more elaborate construction can increase the investment considerably.

Producers in the drier western part of the area have used minimum shelter for many years. Now the substitution of shades and windbreaks for enclosed buildings is being tried in the central area.

High cost and shortage of good bedding materials are putting pressure on traditional cattle housing and manure handling methods. Cattle feeders and dairymen must often pay as much for bedding straw as for good-quality hay.

Oats, once the chief source of straw bedding, are being rotated because they are unprofitable. Field shearing of corn and sorghum, high-moisture crops, ground ear corn are reducing the supply of combeds for bedding as well.

Cattle feeders are trying to lower bedding needs by using slotted-floor barns, liquid manure storage and individual stalls and by cleaning unbedded paved floors frequently.

One way to combat the cost of housing and bedding is to do without both. The major concern then is to keep the cattle reasonably dry and out of the mud. The problem of manure handling and disposal has been acute in the few large feeding operations. However, much of the manure does not get to the feedlot and does not contribute to the farm business as it does on the typical small farm.

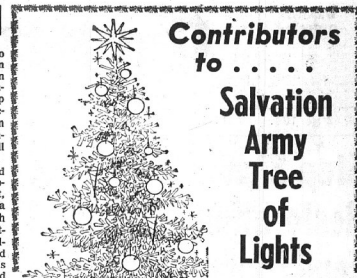

Also attending the conference as county hosts to the cattle feeders were Mrs. Catherine Mauck, county home adviser, and Truman W. May, county farm adviser. Both are local county staff members of the University of Illinois Cooperative Extension Service.

Dairy cows need plenty of warm water for top production in winter. The average dairy cow will drink from 15 to 20 gallons of water per day. A high producer may need as much as 40 gallons daily.

Experiments have shown that cows will produce three to four more milk when they have free access to water than when they are watered twice a day. They will produce six to seven percent more milk on an unlimited water supply than when watered once daily.

Cows should never be made to drink from a hole in the ice in an outside tank. It costs much less to heat water with electricity or fuel before the cow drinks than to heat it with high-priced grain and roughage after she drinks.

## Daily Penalty Assessed On River Bridge Delay

Penalties of \$250 per day are assessed for each day the deadline for the new chain of Rocks bridge, on which has been shut down for the past three weeks, and now totals more than \$1000.

John W. Laytham, Missouri Highway district engineer, said the penalty is being assessed daily for each day past Nov. 15 that the bridge is not completed.

The assessment is being made against the Ruckman & Hansen Construction Co. of Ft. Wayne, Ind., under a liquidation damage clause in the contract between the builder and the Missouri Highway department.

Mr. Ruckman, president of the construction company, said work on the bridge was halted after the company was instructed by Missouri state inspectors to temporarily install expensive heating stoves and wet concrete poured for curbs and parapet walls when the temperature falls below 40 degrees.

Ruckman said this procedure would cause the cost of some operations 500 to 600%. Ruckman & Hansen Co. was awarded the general bridge contract on a bid of \$1,289,575. The free bridge will carry Interstate 270 traffic across the Mississippi between Illinois and Missouri.

Laytham said he was not informed why work was stopped on the bridge during the final stages of construction. The deadline for completion of work was Nov. 15. Ruckman said work will be resumed when temperatures rise to permit pouring of concrete without special equipment.

## State Aid Rolls, Costs Show Decline in County

A total of 681 Madison county residents received \$351,943 in state aid during October, a decrease of 250 persons and \$154,000 from September, according to a report made this week by the Illinois Department of Public Aid.

There was a corresponding state-wide drop in public aid rolls decreased by \$16,433 persons during October. Harold O. Swank, state director, reported that throughout the state 392,385 persons received public aid during the month, compared to 403,839 in September.

The October 1965 total was 20,317 persons below the total for the same month last year. Public aid expenditures in October were \$24,184,050, compared to \$23,315,423 in September. Expenditures in October of 1964 totaled \$24,313,339.

The aid to dependent children rolls dropped 323 persons during

the month, and general assistance 2450. There also were drops of more than 400 persons in old age assistance and 1400 in disability assistance, mostly attributed to receipt of social security payment increases retroactive to last January.

Public assistance payments will be resumed for November and December to many of those removed in October because of the Social Security payment.

Madison county caseloads and costs for each of the five programs, compared with September, follow:

Old-age assistance, 793 persons and \$75,102, down 105 and \$5628; aid to dependent children, 4347 persons and \$180,963, down 54 persons and up \$5017; blind assistance, 42 persons and \$3803, down two and \$118; disability assistance, 435 persons and \$40,850, down 27 and \$384; and general assistance, 1012 persons and \$31,361, down 61 persons and up \$331.

## Holiday Message By Mayor Partney

A message to Granite Cityans in the holiday spirit was made today by Mayor Partney. The mayor stated: "We have passed through another Christmas day and received the message that God is the father of all men and that each man is every man's brother. This message was with us and clear on Christmas day, but too often too many of us lose it aside the day after Christmas."

"Let us resolve to cling to this message through all the coming year and work together to make our city a better place to live, work and worship. This is the thought I wish to share with you and to each of you I extend my wishes for a blessed and joyous Happy New Year."

## Bids to be Sought For Government Jobs

Congressman Melvin Price announced this week that bids are to be sought by the St. Louis District Corps of Engineers, for alterations at the sewage pumping station of the city of Madison.

The bid call will be Jan. 14, and proposals are to be opened Jan. 15. The pumping station is located at the south end of the Granite City Army Depot, and the alterations are to include the installation of new trash racks and other equipment. Also, the St. Louis District will seek bids Jan. 10 for replacement of the upper guide wall at the Alton river locks where about 18 cubic yards of damaged concrete is to be removed and replaced.

## Bids Sought to Extend Mitchell Water Line

The Mitchell Public Water District is calling for bids to extend of Delta Eia Sorority at Eastern addition to Windy Meadows subdivision.

Contract forms may be obtained at office of Sheppard, Morgan & Schwaab, consulting engineers, 2021 Edison avenue, and the deadline for submitting proposals to the water district office, 745 East Chain of Rocks road, is 4 p.m. Jan. 11.

The extension is located south of old Bypass U. S. 66-40, between old Route U. S. 67a and new Route 3, west of Mitchell. It is being developed by Paul Seebold of Granite City.

A notice of the bid call appears under legal notices in today's classified section.

PHARMACY 2657 JOHNSON RD.

## City to Honor Dr. Koch

## Sidewalks to be Required in New Subdivisions in GC

An amendment to Granite City's subdivision control ordinance to require concrete sidewalks along both sides of streets in new areas was approved Monday night by the council members.

In other action, the council authorized a recommendation by Alderman Sternberg that a certificate of appreciation be presented to Dr. Felicia M. Koch, local physician, who was named among the 10 outstanding women in the two-state metropolitan area. Mayor Partney's added suggestion that the doctor be presented with a key to the city also was approved.

A framed certificate expressing the city's appreciation for Dr. Koch's outstanding community service is to be presented during a ceremony. A date for the ceremony is to be set.

Lincoln Place Playground Alderman Rutledge reported an agreement has been reached with American Steel Foundries for the city to use several acres of the firm's property—south of

Niedringhaus avenue and west of its parking lot—for recreational facilities for residents of the area.

Mayor Partney said the city's garbage-trash collection contractor, National Disposal Corp., has agreed to use its equipment to level the area if the city moves the equipment to the site from the city dump. Alderman Sternberg, a contractor, said his firm would move the equipment.

The city will be responsible for taking out liability insurance, and Comptroller John Doehrer was instructed to get prices on policies of \$25,000-\$50,000 and \$50,000-\$100,000.

Planned for the site are relocation of the baseball diamond backstop from the sunset but site in Lincoln Place where lots have been sold for homes to be moved for Federal Air Force 151, and for a soccer field and playground.

The city presently uses part of the tract for storage of cinders and rocks for the street department.

## Monthly Pay for Clerks

An ordinance was adopted placing three city hall office clerks on the monthly payroll at salaries of \$350 and \$325 a month. Two women presently are paid \$2 an hour and are to receive \$350 a month for a 40-hour week and the other receives \$1.50 an hour and is to get \$325. Included are the deputy city clerk and two clerks in the sewer division of the comptroller's office.

Mayor Partney again presented a 30-day appointment of Mrs. Lavesta Erwin as the secretary in the police department. The vote was 8-0-7 with the mayor casting the eighth "aye" vote.

The mayor also outlined his new policy of preparing an agenda in advance of each council session. Aldermen and committee chairmen are to submit data for the agenda by Wednesday, and copies are to be mailed to each alderman by Friday for study over the weekend in advance of a Monday night council meeting.

Items to Be Explained Partney said each item listed

on the agenda will have a paragraph of explanation. In his letter to the council, the mayor said he planned to have each alderman informed in advance of what business would be transacted, and that it would take a vote of approval by council members for any additional business to be transacted.

The agenda meetings are to start next Monday.

In the same letter, he said monthly written reports will be presented to the council by department heads, stating all accomplishments, problems and needs.

Alderman Robertson protested the possible regimentation by the agenda system, but later withdrew his motion for deferment, which had been seconded by Nonn.

Partney explained he merely wanted the letter to be placed on file.

Permission was given Police Chief Willard to attend the Jan. 16-17 semi-annual meeting of the Illinois Association of Police Chiefs to be held in Chicago.

Chief Willard is sergeant-at-arms for the state-wide organization. He was given a \$150 expense allowance.

## 34 Quad-City Youths To be Drafted Jan. 28

The Quad-Cities first draft call of the new year will be on Jan. 28 when 34 local youths are to report to the county selective service office at Edwardsville for armed forces induction.

The quota is the largest since November when 44 Quad-Cityans were drafted. The November quota was 54. This month, two local youths were drafted Dec. 10, increasing to 107 the total of youths called to the armed services in 1965.

Next month's draft quota of 34 Quad-Cityans is included in the total of 122 youths to be drafted from Madison county.

In addition, 460 county youths are to take pre-induction physical examinations next month, including 150 Quad-Cityans. The local youths are to report on two dates—50 on Jan. 18 and 100 on Jan. 28.

## 3 GC Youths Enlist In Army, Now Training

Three Granite City youths have enlisted in the U. S. Army and are now taking basic training at Fort Leonard Wood, Mo. It was announced today by Sgt. James E. Madgock, local Army recruiter.

They are Ardell W. Blind, son of Mr. and Mrs. Roland Blind, 533 Center street; Daniel E. Hannah, son of Mrs. Lyle Hannah, 3236 Wayne avenue; and Russell V. Lockridge, son of Mr. and Mrs. Russell Lockridge, 211 Manley avenue.

Hannah and Blind selected training in the Air Defense Command located in Miami, Fla. Lockridge chose advanced individual training for the Army Security Agency, with an additional option to go to Europe.

The three enlisted under the Buddy plan. Enlisting they are guaranteed technical training in the school of their choice.

## Taverns to Stay Open Late for New Year's Eve Patrons

The 1 a.m. tavern closing hour will be relaxed in the Quad-Cities on New Year's Eve Friday night to permit extended merriment by revelers, authorities announced.

The situation in unincorporated areas of the county remained in doubt, however, as Sheriff Barney Fraundorfer announced that he will try to enforce the 1 a.m. closing law unless otherwise notified by the county law commissioner, Harold Landolt.

"I may have some problems (in enforcement), but I'll do my best," he said.

Granite City Police Chief Ray Willard said taverns and clubs in the city may remain open as long as there are no difficulties. Mayor Partney said he left the matter to the discretion of the police chief and added that he believes the extension should be granted on a conditional basis.

Venice Police Chief Frank De Witt noted that the Venice city council approved extended hours for the night at a recent meeting. No special arrangements were required in Madison which normally has a 4 a.m. closing law.

## Two Street Signs Down

A one-way street sign at 21st street and Grand avenue and a stop sign at Franklin avenue and Pontoon road were reported to be down at 7:15 and 7:20 a.m. Tuesday. The street department was notified.

## Charged With Speeding

Robert Dean, Edwardsville, was arrested at 4 p.m. Monday at Nameoki and Edwardsville roads on a speeding charge. He was arrested on a hearing by Jan. 6.

## Single Zip Code Number In GC To Start Jan. 15

A single five-digit Zip code number, 62040, will serve the entire Granite City postal area effective Jan. 15. W. T. Overbeck, Granite City postmaster, said today in a second announcement of the change.

He said the move is part of a nation-wide program to streamline the Zip code system, and said Granite City is one of 643 cities in which two or more codes are being merged into a single number to simplify the system.

The effective date was delayed until Jan. 15 to avoid confusion during the Christmas mailing season, Overbeck said.

"Mail users may continue to use their old Zip code number on their stationery and other printed mailing equipment until the present supply is exhausted," he said.

"Business firms that have already Zip coded their files will

not be required to update them but can make the transition to the single code as they make routine changes for other purposes.

Overbeck added that Lawrence P. O'Brien, postmaster general, has ordered new nation-wide standards for the assignment of code numbers so that the system will function more smoothly and efficiently in the future.

## Safety, Police Officials List Safe-Driving Rules

The Quad-City Safety Council and area police officials today advised motorists to change their driving habits during winter weather, and said that the first requirement is to be certain that the car is in good driving condition.

The Safety Council listed these rules for driving in adverse weather conditions: Before starting out, clear all ice and snow from windows. Put car in proper gear and start slowly to give the tires a chance to grip.

Keep a large interval between autos while driving. More braking surface is required on a slippery road or highway.

Drive slower than the posted speed limit when roads are ice covered or visibility is reduced, and ease up on the gas if roads are not in perfect condition.

Area police officials pointed out that driving in snow or fog

requires the use of low beam headlights, even during the day. Driving with parking lights on is against the law.

Most skids on slippery roads are caused by oversteering, they warned. If the car skids left, steer left; if it skids right, steer right. By pumping the brakes, a motorist will have stopping and steering control, the statement said.

### Sells Without Approval

Police were called to the Granite City Steel Co. blast furnace division at 6:40 a.m. Tuesday on a report that a man was selling or soliciting for the Veterans of Foreign Wars. It was reported he did not have the permission of the VFW or the chief of police and was ordered to obtain permission from the chief before selling anything in the city. No charge was filed.

## Sgt. Major Hughes is Honored on Retirement

Retirement ceremonies were held in St. Louis this morning for Sergeant Major Raymond Hughes, 38, of 2533 Stratford lane, who has served in the U. S. Army for almost 21 years. He was the first enlisted man to be assigned for duty at the Army Mobility Equipment Center in St. Louis, when the center was activated in February 1964.

The occasion was marked with the presentation of the Commendation Medal with first Oak Leaf Cluster, awarded to the retiree by Brig. General Thomas B. Simpson. The ceremony was conducted in the Commanding General's office at the center.

An automatic data processing systems technician, with extensive training in this field, Hughes has accepted a position with the private firm of Statistical Tabulation Corp., St. Louis.

Hughes and his wife, Helene, a native of Mainz-Kastel, Germany, are the parents of four children, Mabel, 15, a Granite City high school sophomore; Miriam, 14, a Coolidge ninth grade student; Edward, 11, and Michael, 5, who are in the sixth grade and kindergarten, respectively, at Frohardt school.

The family has lived here for the past 18 months, moving to Granite City from Columbus, O. Previously, they were stationed for five years in France.

**Headline in Error**  
The headline of an item on four Madison county liquor licenses which appeared in Monday's issue was in error. The licenses were renewed rather than revoked.

**MRS. MARY UNLAND, 19, Former Resident, Dies**

Mrs. Mary E. Unland, 19, a former Granite City resident and a bride of less than five months, died last week of a congenital kidney ailment at St. Joseph's Hospital in Joliet. She was a daughter of Mr. and Mrs. Maurice McGee, 2335 Rock road.

Mrs. Unland, the former Miss Mary McGee, was married Aug. 1 to Lloyd Unland, and they moved to Minooka, Ill., near Joliet. She entered the hospital in August. Funeral services were held Friday, and burial took place at Woodlawn Memorial Park, Joliet.

In addition, her parents and husband, survivors include two sisters, Sharon and Donna, both of Granite City; four brothers, Morris, David, Joseph and Buddy Lee; and grandmothers, Mrs. Elizabeth Reno of Granite City and Mrs. Alice McGee of Panama, Ill.

## \$25,204 Bill List Ok'd by Council

A \$25,204 bill list was approved Monday night by Granite City council members. Largest item was payment of \$10,228 to National Disposal Corp. for garbage-trash collections this month. Also paid was \$2767 to Elledge Motor Co. for a station wagon for the police department and \$2958 to A. H. Seebold Co. for miscellaneous sidewalk projects.

General Contracting Co. was paid \$2950 to install the drainage line on Johnson road.

Expense allowances of the bill list included \$50 each for Delbert Lampher, city hall maintenance man, Orville Detour, city building inspector, Police Chief Willard and Street Supt. Warfield.

Alzheimerian expense allowances of \$50 were paid to Boyd, Fry, Green, Johnson, Noon, Parmley, Poulos, Robertson, Rutledge, Whitmer and Bartoski.

## Robt. Moore, Former Resident, Dies at 58

Funeral services were held yesterday in Whiting, Ind., for Robert E. Moore, 58, a former Granite City resident who died Sunday at St. Catherine's Hospital, Chicago.

Born in Granite City, Mr. Moore also had resided in Alhambra and Wood River, prior to moving to Whiting two years ago. He had retired in November from Standard Oil Co., where he had been employed for 37 years, working most of the time at the Wood River refinery.

He is survived by his wife, Mrs. Elva M. (Cawson) Moore, one son, Richard E. Moore, and a daughter, Mrs. Esther Meier, both of Hammond, Ind.; his mother, Mrs. Esther L. Moore, Alhambra; and seven grandchildren.

## Mrs. Maxine Carter, 31, Dies in Phoenix

Funeral services were held at 10 a.m. today in Phoenix, Ariz., for Mrs. Maxine Ruth Carter, nee Miller, 31, a former resident of Venice. She succumbed to leukemia at 9 a.m. Monday, at St. Joseph's Hospital, Phoenix, where she had been a patient for two months.

Mrs. Carter had been taken by ambulance to spend Christmas Day with her husband and four young children, at their home, 4531 N. 27th drive, Phoenix. She had been ailing for the past year and in hospital several times.

Born in Lincoln, Ill., Mrs. Carter had lived in Venice from an early age. She had attended Venice grade school and Madison senior high school. She had moved to Centralia about 15 years ago with her parents, Mr. and Mrs. Guy Miller, former 30-year Venice residents, who survive. Mrs. Carter was a member of the Twenty-seventh Avenue Baptist Church, Phoenix.

She is survived by her husband, George, four children, George, 10, Stephen, 4, Susan, 8 and Patricia, 7; a sister, Miss Virginia Markwell, Danville, Ill.; three brothers, Donald Markwell, Albuquerque, N. M., and Edgar and Thomas Markwell of Greenup, Ill.; her parents, Mr. and Mrs. Guy Miller, Centralia; an aunt, Mrs. Eva Barnett, Granite City; and a number of cousins in the Quad-Cities.

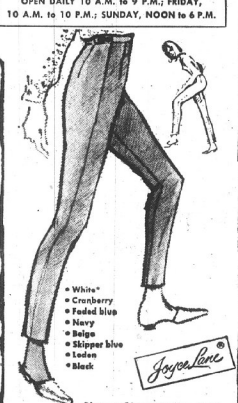

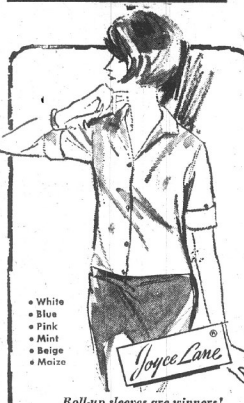

## Truck, Auto Collide

A truck driven by Andrew M. Soffray, Jerseyville, and a car driven by Gerald E. Kent, 13 Frontenac lane, collided at 9:25 a.m. Tuesday on the rear lot of the Reese Drug store at the Bellemeade Village shopping center. Kent said parked cars and another truck obstructed their vision.

As the year goes out SAVE on the underfashions that are 'in'!

## Holiday Engagements Highlight Social Activities in the Quad-Cities

**BETROTHED.** Miss Jennifer Ranft, whose parents, Mr. and Mrs. Carl A. Ranft, 2650 Delmar avenue, are announcing the engagement to Dwight Steve Moore, a son of Mr. and Mrs. John D. Moore, 2413 Rock road.

### Moore-Ranft Engagement

Just announced is the engagement of Miss Jennifer Ranft, a daughter of Mr. and Mrs. Carl Ranft, 2650 Delmar avenue, to Dwight Steve Moore, a son of Mr. and Mrs. John D. Moore, 2413 Rock road.

Miss Ranft who was graduated this year from the Granite City high school, is employed in the office of the J. C. Ranft Bottling Co., and is attending the Pat Allen modeling school. Mr. Moore, an employee of the Granite City Steel Co., was graduated in 1963 from the local high school and is attending classes at SIU-SW Campus, Alton center.

The wedding is planned for the autumn.

**CAPT. JAMES WEST LEAVING FOR PHILIPPINES**

Capt. James E. West, U. S. Air Force, with Mrs. West and their children, David and Susan, who were here over the Christmas holidays for a visit with the former's parents, Mr. and Mrs. Russell West, 2401 Cleveland blvd., are enroute to Denver, Colo., where Capt. West will establish his family before going on to a year's assignment in the Philippine Islands.

The captain was graduated from the U. S. Air Force Academy where he received his BS degree, and from the Air University's Squadron Officer School at Maxwell AFB, Ala.

**FORMER RESIDENTS HERE**

Mr. and Mrs. Albert Weiss of Miami, Fla., former Granite Cityans, are here for a holiday visit with friends. They are house guests of Assistant Chief of Police Floyd Jeff, and Mrs. Jeff, 27th and Benton streets. Weiss is a former Granite City police lieutenant, and he and his wife formerly operated a home decorating shop here.

**FORMER RESIDENTS HERE**

Mr. and Mrs. R. L. Harris of Leisure City, Fla., are spending the holidays here with a son-in-law and daughter, Mr. and Mrs. Arnold Fleishman, 3238 Colgate place, a son and daughter-in-law, Mr. and Mrs. Ronald Harris, 2214 Madison avenue, and Mrs. Harris' parents, Mr. and Mrs. Isaiah Hughes, 4008 Kirkpatrick homes.

**RETURNS FROM CALIFORNIA**

Mrs. Willard Simpson, 2621 Edison avenue, returned Tuesday from a stay of two months in California with relatives. She visited her brothers-in-law and sisters, Mr. and Mrs. M. B. Parsons in Hollywood, and Mr. and Mrs. F. A. Mutscher in Torrance, and was a guest of a nephew, Charles Mutscher and wife in Longport.

### Miss Hawkins Is Engaged

The engagement of Miss Carol Hawkins, a daughter of Mr. and Mrs. Charles Hawkins, 3117 Fehling road, and David Dumoulin, son of Mr. and Mrs. Alex Dumoulin, 2631a Iowa street, is announced.

Both young people were graduated from the Granite City high school, and Mr. Dumoulin will receive his degree from Rolla School of Mines in January. The bride-to-be is employed as a secretary in St. Louis. The wedding will take place in the spring.

### SERVICE MEN LEAVE FOR SPECIAL TRAINING

Ronald M. Woods, son of Mr. and Mrs. Muri Woods, Ashland avenue; Edward M. Adams, son of Mr. and Mrs. John E. Adams, 621 Margaret avenue; Harry J. Thureau, whose parents are Mr. and Mrs. Harry F. Thureau, 2516 Center street; and Robert D. Burkett, a son of Mrs. Violet Thomas, 4916 Hills avenue, were at home on leave recently.

Thureau returned to Fort Gordon, Ga., for eight weeks advanced training, prior to beginning officers training at Fort Benning, which was guaranteed him before he enlisted. Burkett will receive advanced individual training as a chaplain's assistant at Fort Ord, Calif. Adams will attend engineer school, and Wood will attend administrative school, both at Fort Leonard Wood.

These technical schools were guaranteed them before enlistment at the Army Recruiting Station, 1340 Niedringhaus avenue.

**ENGAGED.** Miss Carol Hawkins, whose parents, Mr. and Mrs. Charles Hawkins, 3117 Fehling road, are announcing her betrothal to David Dumoulin, a son of Mr. and Mrs. Alex Dumoulin, 2631a Iowa street.

### Miss Morrison Is Engaged

Mr. and Mrs. K. J. Morrison, 2428 Grand avenue, are announcing the engagement of their daughter, Miss Barbara Jean Morrison, to James Birks, whose parents are Mr. and Mrs. Russell Birks, 2803 Warren avenue. The news was told at a holiday party in the Morrison home.

The bride-to-be attended Illinois State University. Mr. Birks is the U. S. military service, stationed in St. Louis. He resides with his parents here. Wedding plans have not been made.

**MISS BARBARA JEAN MORRISON**, who will become the bride of James Birks, a son of Mr. and Mrs. Russell Birks, 2803 Grand avenue. The engagement of the couple is announced by Mr. and Mrs. K. J. Morrison, 2428 Grand avenue.

### Post-Yule Party At Kirkpatrick

The Golden Circle senior citizens of the Kirkpatrick Homes held a post-Christmas party Tuesday afternoon in the recreation hall of the project with 51 present, including several guests. Mrs. Agnes Roderick, Mrs. Helen Semberger, Mr. and Mrs. Adam Munsterman and Mrs. Ann Miller.

Games were played and prize winners were Mr. Munsterman, and Mrs. Ethel Robinson. The birthday of Ira Medcalf was observed and a birthday cake was served, together with cookies and coffee.

### Birthday Party At Alexanders

Mr. and Mrs. Norman Alexander, 2637 State street, entertained guests at a party Tuesday evening in honor of the first birthday of their daughter, Susan Marie.

Those present were the grandparents, Mr. and Mrs. Gordon Alexander of Granite City, and Mr. and Mrs. Karl Drag of East St. Louis, Mr. and Mrs. Robert Tessmer and daughter, Diane, and Mrs. Clara Tessmer, also of East St. Louis, Mr. and Mrs. Walter Lubarda and daughter, Linda, and son, Joe, of Belleville, Mr. and Mrs. Steve Blives of St. Louis, Richard Womack and Mr. and Mrs. Sam Naglich and daughter, Angela, of Granite City.

A buffet dinner was served and gifts were presented to the young guest of honor.

### MR. AND MRS. JAS. DOYLE ENTERTAIN FOR GUESTS

Mr. and Mrs. James Doyle, 2243 Washington avenue, entertained with an open house this week at the American Legion Home in honor of their son and daughter-in-law, Mr. and Mrs. James Doyle Jr. and their daughter, Jennifer, of Northridge, Calif., who are here for the holidays, and for an aunt, Miss Rose Doyle of St. Louis, who was celebrating her 85th birthday.

Eighty-five guests attended the open house, including a son-in-law and daughter, Dr. and Mrs. Robert Schiavone and their children, Lisa, Kimberly, Bobby and Ann, of Louisville, Ky., who were here for a part of the holidays.

**BRIDE-TO-BE.** Miss Catherine Coyle, who will be married to Michael D. Dillon, a son of Mr. and Mrs. James O. Dillon, 1300 Rhodes street. The engagement is announced by the bride-elect's parents, Mr. and Mrs. William A. Coyle, 1407 Rhodes street.

### Dillon-Coyle Engagement

Mr. and Mrs. William A. Coyle, 1407 Rhodes street, have just announced the engagement of their daughter, Miss Catherine S. Coyle, to Michael D. Dillon, whose parents are Mr. and Mrs. James O. Dillon, 1300 Rhodes street.

The bride-to-be, a graduate of the Granite City high school is employed in the sales accounting department of a St. Louis firm. Her fiancé was graduated from the Madison high school and is employed as a construction worker in the local area. Wedding plans are indefinite.

By Press-Record Staff Photographer

**HEADS UP BALL** and "hands up" as well as played at the Community Center Wednesday afternoon as (left to right) Danny Isom and John Harper of the Rockets battle for a rebound against Community Center's Tom Miner. Community Center won the game 85-68 in the park district's holiday cage tourney for the high school league.

## Beats Holland Twice in Day

### Community Center Wins Park Cage Tournament

Community Center won the park district's holiday basketball tourney for the high school league the hard way by winning three games in one day at the Community Center yesterday.

At 1 p.m. yesterday Community Center defeated the Rockets 85-68 and set the stage for the championship game at 7 o'clock last night.

Top-seeded Holland Asphalt then was upended by the Center, 84-64. Dan Partney led the Center's attack with 21 points, while Jim Rains and Bill Cox each had 20 points. Rick Turpenoff was high for Holland with 22 points.

With Holland having one loss, and the Center having lost earlier to Holland, the tourney was forced into a final playoff game. In that contest Community Center edged Holland 86-75, in the third game of the day for the winners.

Len Revelle led the winning attack with 25 points and Rains added 20 points. Turpenoff led

Holland with 31 points. An All-Tournament team was selected and Community Center and Holland nailed down every spot. Chosen at guards were Cor (CC) and Mike Pritchard (Holland), forwards, Rains (CC) and Turpenoff (Holland), and center, Partney (CC).

Community Center, behind the shooting of Jim Rains, downed the Rockets 85-68 to gain their match with Holland Asphalt. Rains had 26 points in yesterday afternoon's game.

Holland edged Community Center 69-53 Tuesday evening in the double elimination tournament.

In the Community Center-Holland game, Rick Turpenoff led all scorers with 30 points and teammate Mike Pritchard had 19 for the Holland squad. Jim Rains had 29 for Community Center.

In action Tuesday morning the Rockets defeated Roca 61-37. Dan Isom had 16 for the Rockets, while Steve Conway took high point honors with 27 for Roca.

First-round action saw Western Auto forfeit to the Rockets. In the losers bracket, Western Auto forfeited to Roca and the Raiders forfeited to the Rockets on Monday.

# Venice To Tangle With Litchfield

## GC Takes Quick Lead in Holiday Mat Meet

### Fuchs Champion; Flyers Qualify Seven, Push GC

Holding a slim three-point lead after the first three rounds of their double-elimination holiday wrestling tournament, the Warriors of Granite City high school took part in semi-final and final competition this afternoon.

Semi-final bouts began at 1:30 p.m. and championship pairings were scheduled to begin at 3 p.m., with all weight divisions decided by about 5 p.m. today in the GCHS gymnasium.

After the first day of competition yesterday, the Warriors had 31 points and Southwest Conference rival East St. Louis was a close second with 28 and Champaign was in third place with 25 points.

Edwardsville Tigers had 18 points and second-seeded Stephen Decatur was fifth with 14. Wood River had 13 points, Southwest nine and Bethalto eight to round out the first-place group.

East St. Louis, which Granite City defeated in a dual meet earlier this year, qualified seven matmen for the semi-finals while Champaign placed six and the Warriors five. However, GC's entries total six counting one who has already won the title in his weight.

**Fuchs 95-Pound Titlist**  
Bill Fuchs, highly-touted 95-pound wrestler for Granite City, sewed up the championship in that class with three pins. Defending his tournament crown of last year, Fuchs stretched his winning streak to a 14-0 mark.

Mike Andria, another undefeated Warrior, gained two wins and drew a bye in the 145-pound class to stretch his season mark to 13-0.

Andria and Fuchs are two of the six Warriors who qualified for the championship division. Joe Martinez (180), Lester Robertson (120), Jim Valicoff (145) and Dewey Bell (heavyweight) also are undefeated in tournament action.

**Three In Consolation Bout**  
Three Warriors competed today in the consolation bracket, having lost once each. They were Mike Reynolds (112 pounds), Bruce Illies (154) and Ray Hankins (160).

Edwardsville's 260-pound heavyweight Lou Hartman scored one of the quickest pins in the tourney as he defeated Bethalto's Dave Cooper in 42 seconds. Hartman, in the most exciting bout last night, lost to a referee's decision to John Esterdarg, a 225-pounder from Champaign.

Esterdarg was awarded the decision after scoring two points on two escapes, and winning two take-downs.

Other highlights of last night's action were Champaign's John Griffith's 48-second pin of Edwardsville's Larry Creek in the 145-pound class; Griffith's 21-4 decision over Ray Bethel of Bethalto; and 154-pound class defending state champion Ben Cooper of Decatur in a 58-second pin victory over Jim McCloud of Champaign in the 180-pound class.

If Andria beats Brownridge (ESL) in the 133-pound class, Valicoff beats Harrington (ESL) in the 145-pound class, Martinez wins his match with Champaign's Taylor and Robertson wins his bouts with Mattox of Champaign and Dickson of East St. Louis, the Warriors can walk off with the title.

Moore, Ripka High Scorers  
Terry Moore was high scorer of the game with 22 points and Larry Ripka was right behind with 21 points.

Moore, who did not start the game in an effort to get the most out of him without him fouling out, connected on nine field goals and five free throws. He had been plagued with personal fouls.

## In Consolation

### GC Advances In Pontiac Cage Tourney

Granite City's "Fighting Warriors" got on the winning board with a record-breaking 99-56 basketball victory over Bloomington Wednesday morning in the consolation championship round of the Pontiac Holiday Tournament.

The Warriors had lost to Prospect Tuesday in the first round,

## BULLETIN

Granite City's Warriors upended Peoria Richmond 85-72 in a semi-final consolation round basketball game in the Pontiac holiday tournament today.

The Warriors will play the winner of the Lincoln-Bloomington game at 7 o'clock tonight for the consolation championship.

8-21. They were to meet the winner of the Sterling-Peoria Richmond game this morning. Bloomington lost its opening game to LaSalle Peru 54-50, while Richmond lost to Lockport 72-54 and Sterling bowed to Waukegan 69-44 in first-round action.

Three tournament records were set in the Granite City-Bloomington game, either crusing or tying old marks.

The Warriors set a new record for the most single team points in a game at 92. The old mark was held by Proviso East (1959) and Pekin (1964) at 91.

**New Free Throw Mark**  
Granite City also set a new mark for the most free throws made by a team in a single game at 47. Springfield set the mark at 35 in 1963.

The combined scoring efforts of Granite City and Bloomington tied the record for most points scored in a single game by both teams.

Bloomington defeated Sterling 83-72 in 1963 to originally set the mark.

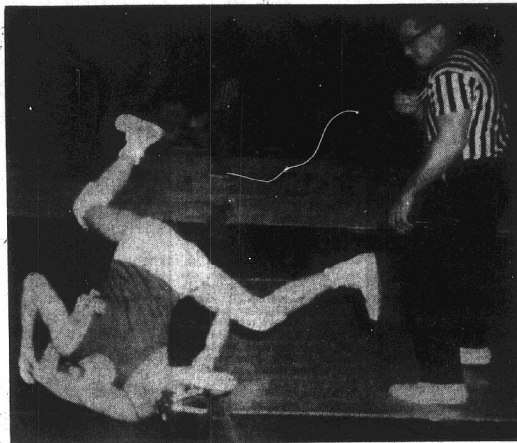

The Warriors did a complete about-face from Tuesday's first-round game against Prospect. "We played better, but the game was marred by fouls," said assistant coach Bryce Boston.

Sixty-nine fouls were called against both teams in the contest, 30 against the Warriors and 29 against Bloomington. Two weeks ago, the Warriors helped set a record of 64 fouls by both teams in a Southwestern Conference game against Alton at Granite City.

Moore, Ripka High Scorers  
Terry Moore was high scorer of the game with 22 points and Larry Ripka was right behind with 21 points.

Moore, who did not start the game in an effort to get the most out of him without him fouling out, connected on nine field goals and five free throws. He had been plagued with personal fouls.

In the third quarter, we missed six straight shots and didn't look too good, but then I played the reserves during the last period," McClanahan said. At half-time, only three fouls had been called against each team, and Madison finished with

**APPARENT HEADSTAND** was used by Ted Griener of Bethalto during third-round action in the 127-pound class at Granite City's holiday wrestling tournament last night. Warrior John Brooks, on the bottom, lost a decision to Griener 6-3.

## Madison Wins 3rd Place in Mater Dei Basketball Tourney

Madison's Trojans, trailing by five points with three minutes left to play, came from behind and beat host school Mater Dei 10-9 in the third-place game at the Mater Dei basketball tournament last night.

Earlier in the day, Madison 10 personals to Assumption's dropped a semi-final game to Highland 99-76 and Mater Dei lost to East St. Louis, 68-50.

In other action last night, Highland tied the game with seconds left and beat East St. Louis 67-63 in overtime for the championship. Bethalto downed Alhott 57-47 for the consolation title.

"The kids did a fantastic job hustling and playing real heads up ball after the Highland game," said Madison basketball coach Earl McClanahan.

**Turner Sets Tourney Record**  
Dale Turner, who broke the tournament scoring record for four games with 165 points, netted 27 for the Trojans third-place victory. Gary Lusk and Neil Podoba added 15 and 14 points.

In the Highland game, Madison was hurt by the rebounding height of the Bulldogs, and the Trojans shot a poor 282 from the field during the first half of play.

The Trojans came back to outscore Highland 31-48 in the second half, but the Bulldogs' lead was too much for Madison.

Turner, 6'11", was the lone Madison player chosen and the only player unanimously selected for the All-Tournament team.

"The kids played their hearts out. They really did a great job," McClanahan concluded.

**Assumption Game**  
Against Assumption, the Trojans "looked a little sloppy," according to cage mentor Earl McClanahan.

In the third quarter, we missed six straight shots and didn't look too good, but then I played the reserves during the last period," McClanahan said. At half-time, only three fouls had been called against each team, and Madison finished with

## For Tourney Title After 73-66 Victory

Venice's Red Devils advanced to tonight's final championship game against Litchfield in the Freeburg-O'Fallon holiday cage tournament at Freeburg by beating Lebanon 73-66 in the semifinals last night.

Litchfield reached the championship game by scoring a come-from-behind 66-55 win over Augustinian.

Lebanon tied the game briefly in the third quarter at 36-36, but then scoring punch of Percy Dillon-Rich Essington gave Venice a spark and the Red Devils pulled away from Lebanon.

Dillon finished the game with 28 points, and Essington had 22 points to his credit.

Tonight the Red Devils meet Litchfield at 9 p.m. Bill Ohlen-dorf, Venice coach, had this to say: "They play a zone, and they are not too much bigger than we are, but they've been looking good in the tourney."

The third-place game between Lebanon and Augustinian starts at 6 p.m., and the consolation contest at 7:30 p.m.

**Essington Scores 76 in Meet**  
The Red Devils opened up the tourney with a 68-56 victory over Waterloo. Johnny Gardner led all scorers with 23 points, respectively.

But the big game came the following day when Venice met New Athens. Jack Jackson, star player of New Athens, had hit for 40 points the previous night, and connected for 30 in the Venice game.

Not to be outdone, the Red Devils' Rich Essington poured in a career high of 41 points. The 5'11" playmaker for Venice connected on 17 field goals and seven of nine free throws over the Red Devils won 87-67.

Gardner added 14 and Dillon had 13 in the Red Devils' victory.

John "Champ" Summers, a former cage star at Madison, is second in scoring for the Nicholls State College basketball team with an 11.8 average. Summers is a 6'1" sophomore for the Louisiana college.

**Questionnaires To be Mailed to 20,000 Anglers**  
A select group of about 20,000 licensed fishermen will receive a questionnaire during the first week in January. William T. Lodge, director of the Illinois Department of Conservation, announced today.

Purpose of the questionnaire is to determine the needs and desires of fishermen in Illinois and to obtain information that will help in establishing goals for the fisheries management program.

The questions will concern fishing activities in 1965 and are so worded that they can be answered easily and quickly.

"We need information," Lodge said, "and we hope that fishermen will cooperate with us and answer the questionnaires as accurately as possible. Other steps that have tried this type of survey report that it was successful."

MORE ABOUT

Roger Babson

course, would greatly enhance Red China's prestige in dealing with the Afro-Asian nations. 8. Despite talks on a prolonged struggle in Vietnam, I forecast that it will be increasingly clear that the balance has swung our way. This should encourage our leaders to step up our commitment in Vietnam in 1966 in order to force a "peace conference."

9. I foresee no crisis over Cuba in 1966. The agreement Castro has made to allow more Cuban refugees to enter the U. S. A. underscores the problem he has in feeding his people.

10. The Vietnam situation and the Dominican Republic incident have convinced the Administration that the military might of our nation must be maintained at a "ready" basis. This means stepped-up defense spending, which should add another prop to the economy.

11. While such defense spending will focus heavily upon conventional military equipment, our space program will not be

neglected. Having come from behind in the space race, the Administration is not likely to falter and allow Russia to open another wide gap.

12. The increase in defense spending notwithstanding, I forecast that the economy will be hard pressed to match the fantastic achievements of the past four years. Threats of major labor strikes have been playing an important role in stimulating inventory accumulations from time to time to keep things rolling along.

13. I do look for industrial production to edge to a new high. However, I fear the peak will come before midyear and taper off thereafter. On the whole, the business climate in 1966 may well prove to be one of high-level stability rather than of vigorous climb.

14. Business inventory accumulation, likewise a factor in the boom, should have a less vigorous expansionary force. Perhaps fears of inflationary price increases will encourage businessmen to maintain a healthy volume of inventories; but unless war threats intensify, I see no need to pile up much more in inventories.

15. Consumers will have more money to spend in 1966. I forecast a further uptrend in personal income to new high ground. An important influence in this respect is the impact of automatic wage increases which are called for in existing multi-year labor pacts.

16. Also, I predict a further rise in the general structure of wage rates, as many secondary labor unions seek to match the gains of the auto and steel workers.

17. Unless another federal tax cut is enacted—which now seems remote in view of the war effort and the present fiscal deficit—net income after taxes may not rise as rapidly as gross income. The social security tax rate is scheduled for a step-up. Also, higher state and local taxes—including sales levies—will place more of a burden on consumers.

18. The all-important employ-

ment situation should remain generally good. We may have seen the greatest portion of the rise in manufacturing employment. However, employment in government payrolls at all levels, and in services, should continue to show sizable gains.

19. I forecast no radical change in the jobs picture. Let me warn readers, however, that the problem is far from solved, and in coming years we may well have to reckon with it. The draft step-up only temporarily eases things and gives a false sense of well-being.

Excellent Retail Trade

20. Retail trade should enjoy another excellent year. Much of the gain in dollar volume, of course, will come from price rises. Nevertheless, as long as personal incomes, employment and business hold high, consumer confidence will encourage spending.

21. Spending for food, apparel and general merchandise should continue upward, also for leisure-time and vacation lines. Color television is catching on, and I look for continued strong demand in this field.

22. The automobile business will not be left out in the spending spree. It will enjoy another prosperous year, but I foresee no significant upsurge beyond the high levels of the past two years.

Foreign Vacations

23. In view of the drain in our gold supplies, the government has been endeavoring to promote domestic travel and vacations. Nevertheless, I forecast further interest in foreign vacations. In one sense, I am happy to see this.

I have done considerable foreign traveling, and I feel that such activity is definitely advantageous. Furthermore, I feel that foreign travel can help Americans to wake up to the advantages here at home and make them more thankful for the blessings they enjoy.

24. Many readers—especially those retired and living on pensions and social security—are worried about the threat of inflation. I forecast no radical inflation during 1966. . . . The Administration is committed to "non-inflationary" program. However, some price increases appear unavoidable.

Credit Inflation

25. I think that the greater danger will lie in credit inflation, rather than in price inflation. 26. With the rise in defense spending and the cost of legislation for the Great Society, the federal budget will suffer a sizeable deficit. In addition, states and municipalities are unable and unwilling to live within their means. Consumers will also go further into debt.

27. Look for new increases in

Social Security Up 824% Since 1937; 1143% Slated

The history of the federal Social Security program has been marked by periodic liberalizations in benefits and upward adjustments in Social Security taxes. The Taxpayers' Federation of Illinois has pointed out that the increase in 1966—effective Jan. 1—will be the tenth that Social Security taxes have been

Two Zoning Requests Go to Plan Commission

Two petitions requesting changes in zoning classifications were received by the Granite City council Monday night and referred to the City Plan Commission for recommendation. Public hearings are to be conducted about Jan. 13 on the requests. One request, submitted by Fred Bolliger, owner, for a commercial C-1 classification for property at 1509-11 Pontoon road, now zoned R-1 for single family dwellings; and Charles Lybarger, president of the Briarcliff Development Co., for an apartment and multiple family dwellings planned south on Pontoon road and west of the second addition to Briarcliff subdivision. The area is zoned R-2, now, and R-4 and R-8 classifications are sought.

Speeding Charge Filed

Marvin G. Hawkins, 4017 Braden avenue, was charged with speeding at 8:35 p.m. Monday at 2800 Madison avenue. He was summoned for a hearing by Jan. 7.

be the time for illogical speculation and gambling in the stock market. Above all, let me remind readers of the dangers of using borrowed money to buy stocks. Those who "go off the deep end" may well regret it before very long.

Don't Speculate

45. Those who invest (not speculate) on the basis of growth will sleep better nights. I have in mind the expanding population, rising incomes, scientific advances, greater leisure and, above all, the impact of the Great Society.

46. Investors should be pleased with cash dividend payments in 1966. I forecast that there will be another increase. I would also expect a rash of stock dividends and stock splits, particularly in the first half of the year.

47. If businessmen, consumers and investors do not act voluntarily to keep inflationary pressures and speculation from getting out of hand, the monetary authorities may be forced to raise margin requirements on stock purchases, and perhaps tighten credit further.

48. Look for somewhat lower bond prices in 1966. Although we are not in immediate danger of credit exhaustion, the banking system is under some strain from the rapid expansion of credit in recent years.

49. My advice is to buy bonds which mature in five years or less. The time to buy good long-term bonds will come when the yields on short-term bonds exceed those on long-term issues.

No Dollar Devaluation

50. The dollar will not be devalued in 1966. Possibility of devaluation of the British pound will undoubtedly come to the fore again, but additional effort will probably be made to keep the pound from "going under." I fear, however, that all this is only "buying time" . . . that devaluation of the pound may be inevitable.

51. I foresee no cure for the outflow of gold from America's shores in 1966. However, in view of the importance of the U. S. in international trade and world military considerations, foreign bankers will be reluctant to withdraw their gold en masse.

52. Bear in mind also that there is no country that can match our industrial and military might . . . and that, among the leading nations, the United States has suffered least in terms of the ravages of inflation and political instability.

raised since the program was born 30 years ago. When the Social Security Act was enacted in 1935, the maximum combined tax on employer and employee was \$60, with scheduled increases calling for an eventual combined tax of \$180 per \$1,000 of wages.

Future Increases

The Social Security like that

| FEDERAL SOCIAL SECURITY TAXES |            | 1937-1965 Actual |        | 1966-87 Scheduled |  |
|-------------------------------|------------|------------------|--------|-------------------|--|
| Period                        | O.A.S.D.I. | Medicare         | Total* | Maximum Tax Paid  | Maximum Tax by Self-Employed Individual* |
| 1937-39                       | 1.0        | —                | 1.0    | \$3000            | \$ 30.00                                 |
| 1940-41                       | 1.5        | —                | 1.5    | \$3000            | \$ 30.00                                 |

| 1986-87                       | 6.5        | —                | 6.5    | \$4800            | \$ 48.00                                 |

\*Tax rate must be paid by both the employee and the employer; the total is double that listed. Self-employed individuals must pay a tax that is equal to one and one-half times the amount paid by an employee.

Real estate foreclosures; I expect a further rise in 1966.

Profit Squeeze

33. Business profits in 1966 will not advance as sharply as in the past two or three years. The squeeze is on in profit margins; hence I look for a tapering off in the rise of corporate profits, although I foresee no drastic slump while activity holds near peak.

More Competition

29. I look for an increase in domestic competition in 1966. This should become more evident as the business upsurge tapers off. Also, we must not forget foreign competition. With many nations feeling the pinch of a dollar shortage, they will work to remedy this by increasing their sales here.

Home, Apartment Buildings

37. Private home and apartment building could show slight improvement, but the real boom in residential building will not

Industrial and Highway

36. The important building and construction lines should hold excellent 1965 year. Their dollar volume may be due largely to price and cost inflation. The Great Society program is a plus factor for construction, including urban renewal and highways.

Stock Downturn Possible

41. Trees do not grow to the skies; neither does the stock market rise unendingly. While I forecast that the stock market—as measured by the Dow-Jones Industrials—can surpass the high mark of 1965, I anticipate a volatile 1966 market with a good-sized drop-off a real possibility sometime during the year.

Effective January 1, 1966, the Federal Excise Tax on telephone service will be reduced from 10 to 3 per cent. Following the initial drop, the tax will be lowered 1 per cent each year until it is eliminated in 1969.

Telephone users will receive the full cash benefit from this tax reduction. The tax, which is levied directly on those who use telephone service, has been included on monthly telephone bills, and each month your tax payment has been sent on to the federal government. In effect, the telephone company has been a collection agency.

When the excise tax is eliminated in 1969, Southwestern Bell telephone users in Illinois will save more than \$800,000 annually.

# Press-Record Youth Focus

## Many New Records Set On SIU Campuses in 1965

The year 1965 is going into the books as Southern Illinois University's biggest to date.

Academic programs, physical expansion and enrollment all set new records at the school which, in its 81st year of operation, climbed into the ranks of the nation's 20 largest universities.

That ranking is based on full-time resident enrollment, and SIU counted 24,502 students when classes began in September. Of those, 17,306 were at Carbondale and 7,196 at the brand new \$25 million Southern campus.

The most extensive construction programs in Southern Illinois focused on SIU's campuses. At Carbondale, it amounted to some \$28 million, biggest chunk of which was represented by a \$15.5 million student residence project (University Park) dominated by a 17-story tower.

University Park was scheduled, except for one men's hall, in September. Also opened was Lawson hall, a semi-circular collection of lecture-auditoriums under one roof. Nearly complete by the end of the year was a sprawling, \$3.9 million communications building and a combined office-classroom building adjoining Lawson hall.

**Technology Complex**  
The technology building group, a three-building complex which will be the home of SIU's booming engineering program, was all but bricked in. Located immediately west of the SIU Arena, the "Tech Group" is scheduled for occupancy next May.

Also at Carbondale, construction began on a physical sciences building to house the departments of chemistry, physics, geology and mathematics. The \$5.5 million structure is being financed through the Illinois Building Authority.

While the two-campus university grew across the 11,000 acres it now has in use for all purposes, academic expansion was marked by continued strengthening of existing programs, rather than new ones.

The beefing-up process was most apparent in the graduate school, second fastest growing segment of the student population (outside of the freshman class).

**18 Doctoral Degrees**  
With the addition of mathematics during the year, the graduate school offered doctoral degrees in 18 areas. Groundwork was well underway toward establishing a Ph.D. program in physics. Chemistry, long a strong subject at SIU, was gearing for major gains when the new building is completed.

William Simeone, who was appointed graduate school dean during the year, cited the award of three Ph.D. candidates. The year's three awards virtually assured expense-free schooling for number of SIU students studying for doctorates jumped from 180 in 1964 to 228 in 1965.

Contracts for research at SIU topped \$6 million during the year, an all-time high.

Not all the record-setting was strictly institutional. Students established some that made local headlines, if not the World Almanac. For instance, the vehicle registration office issued some 170 motorcycle permits and one estimate of the total "cycle count" in town was 3000. This caused a visiting newspaperman to call Carbondale "the Honda capital of the world."

And Darrell (Skip) Green, a student from Hinsdale, set out to break the world record for sit-ups. He finished at 869, which was a new record for the state.

SIU topped \$6 million during the year, an all-time high.

## Jr. Achievement Center To Resume Next Monday

The Granite City Junior Achievement Center will resume activities on Monday after being closed for the Christmas holidays.

Applications for membership may be obtained from Gene Rekowski, center manager, from 7 to 9 p.m. Monday through Thursday.

Tickets for the annual J. A. coronation ball to be held Feb. 4 in the Khorassan room of the Chase hotel may be obtained from the center manager. The Bob Kuband band will furnish music. Representing the local center in the queen's court will be Sharon Koch, treasurer of General Products, sponsored by General Steel Industries.

Rekowski announced that Dennis Mathis of Dow-Gil-Matrics, sponsored by Dow Chemical Co. and Charles Dollar of Jumbo, sponsored by the A. O. Smith Corp., have joined the \$100 sales club.

The Granite City center for the fifth consecutive week led all centers in the Mississippi Valley region in sales. Five firms here are in the top 15 companies. Amco, producing and selling ludge, continues to be the No. 1 company in the region.

Others in the top 15 are Jumbo, battery jumper cables, sponsored by A. O. Smith Corp.; Kamico, embossed mugs, sponsored by American Steel Industries; Tomco, candles, sponsored by Dow Chemical Co.; and Safco, auto trouble lights, sponsored by General Steel Industries.

## Peace Corps Placement Tests Set for Jan. 8

Peace Corps placement tests will be held at 9 a.m. Jan. 8 in Room 414, Federal building, 750 Missouri avenue, East St. Louis.

The Peace Corps uses the placement test to determine how an applicant can best be utilized overseas. The test measures general aptitude and the ability to learn a language, not education or achievement.

The application form, not the placement test, is the most important factor in the selection of volunteers. Persons interested must fill out an application and present it to the tester before taking the test. Applications may be obtained from local post offices or from the Peace Corps, Washington, D. C. 20525.

The placement test takes about 1½ hours. An optional achievement test for those who have studied French or Spanish requires another hour.

**Rooms Available for 100 New Women at SIU**  
Nearly 100 incoming freshmen women will find unexpected on-campus housing when they report for the start of the winter quarter Jan. 3 at Southern Illinois University's Carbondale campus.

Vernon H. Broerjies, housing coordinator, said a survey at the close of the fall quarter, Dec. 17, showed 82 vacancies remaining in the University-operated residence halls for women. These are at Woody hall, Thompson Point, and the new 17-story Neely hall in the University Park complex.

Residence in the on-campus housing provides rooms and board for \$265 per quarter, Broerjies said.

There may be a few rooms for men students, the housing official said, depending upon whether or not all the reservations are picked up.

The University had 24,502 students enrolled for the fall quarter.

**Named to Sorority Post**  
Sally Stieb, daughter of Mrs. June Stieb, 2211 Pomeroy, is the newly elected vice-president in charge of pledge training sponsored by American Steel Industries; Tomco, candles, sponsored by Dow Chemical Co.; and Safco, auto trouble lights, sponsored by General Steel Industries.

## 550 Tickets Sold For Teen Town New Year's Eve Dance

Only 30 tickets remained for the Teen Town New Year's Eve dance Friday night at the YMCA, Brian Brossman, Teen Town director, announced after the close of the advance sale Monday.

About 550 advance sale tickets were picked up by teenagers at \$1 for members and \$1.25 for non-members. The remaining tickets will be available at the door at \$3 each.

The Coachman band will play from 9 p.m. to 2 a.m. Admission tickets also include hats and noise-makers, and a buffet of cold cuts, cheese, potato salad, baked beans and relishes.

**CRACKING THE BOOKS** during the Christmas holidays are students from various schools and universities at the Granite City public library. Among the crowd Monday were, left to right, Joe Lucida, Josephinum College, Worthington, Ohio; Pam McCollum, University of Illinois; and Jeanine Hoover, Eastern Illinois University. At far left is Mrs. Melvin Friedman, talking about college with one of the girls.

## Engineering Students Visit High Schools

Harold W. Hill, 2312 O'Hare avenue, is one of 33 engineering students at the University of Illinois at Urbana giving part of their Christmas holiday to tell students in high schools about the engineering open house to be held March 11-12 at the university.

Hill, a freshman, was scheduled to stop at Granite City high school. Several thousand high school students go to the U. of I. campus each year for the open house in which the college shows what engineering is about and how engineers are trained and to answer questions.

Visitors also will have an opportunity to attend two other events at the university on the same days. Aviation students will have an open house at the U. of I.—Willard airport, and in the Assembly hall, Pershing Rifles, military society, will be holding its annual invitational drill meet.

The largest collegiate competition of its kind. All events are free.

## Walther Students Take Part in Old Christmas Rite

A unique and impressive service was held at the Christmas Eve midnight service at Concordia Lutheran Church, 23rd street and Grand avenue.

The Walther League, composed of junior and senior high school students, was responsible for much of the service. They tried to capture, as nearly as possible, the German Mass and order of service. It was particularly rich in Christmas symbolism as well as simple and truly Lutheran.

The setting and costumes were unique as youths walked down the center aisle in robes tied with rope much like those worn by the early monks. They carried flaming torches, a large polished wooden cross and a banner symbolizing peace, all made by league members.

In one corner of the church in front of the altar was a grotesque tree from which a "gown" a bright false fruit. It symbolized the tree from which Adam and Eve disobeyed and false fruit to bring death to them.

**Walther Students Take Part in Old Christmas Rite**

A unique and impressive service was held at the Christmas Eve midnight service at Concordia Lutheran Church, 23rd street and Grand avenue.

The Walther League, composed of junior and senior high school students, was responsible for much of the service. They tried to capture, as nearly as possible, the German Mass and order of service. It was particularly rich in Christmas symbolism as well as simple and truly Lutheran.

Granite City PRESS-RECORD  
Thurs., Dec. 30, 1965 Page 9

selves and to us.

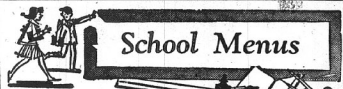

In the other corner on the opposite side of the altar was the familiar Christmas tree long recognized as a reminder of the birth of Christ.

Highlight of the service was the celebration of the Lord's supper. Unleavened bread used also was made by the youths. The usual tradition in the Lutheran Church is to receive the body and blood of Jesus from the pastor. This Christmas Eve the communicants took the bread and wine themselves.

The service was conducted by Rev. Arvin Tietmeyer, pastor. Walther League participants were Bob Hordley, cross bearer; Steve Hamilton, Larry Rapp, Allen Koester and Dale Koester, torch bearers; Craig Argert, banner bearer; Diane Argent, Marilyn McNeil and Linda Laborn, bearers of bread and wine; and Berth Tietmeyer, Marilyn Shane, Carolyn Shane, Pat Finke, Karen Koester, Debbie Koester, and Deloris Hordley, tucked worshippers. Susan Boyd and Richard Ayres delivered short nativity dialogue sermons.

The service was conducted by Rev. Arvin Tietmeyer, pastor. Susan Boyd and Richard Ayres delivered short nativity dialogue sermons.

**GO TO CHURCH SUNDAY**

**CRACKING THE BOOKS** during the Christmas holidays are students from various schools and universities at the Granite City public library. Among the crowd Monday were, left to right, Joe Lucida, Josephinum College, Worthington, Ohio; Pam McCollum, University of Illinois; and Jeanine Hoover, Eastern Illinois University. At far left is Mrs. Melvin Friedman, talking about college with one of the girls.

**Engineering Students Visit High Schools**

Harold W. Hill, 2312 O'Hare avenue, is one of 33 engineering students at the University of Illinois at Urbana giving part of their Christmas holiday to tell students in high schools about the engineering open house to be held March 11-12 at the university.

Hill, a freshman, was scheduled to stop at Granite City high school. Several thousand high school students go to the U. of I. campus each year for the open house in which the college shows what engineering is about and how engineers are trained and to answer questions.

Visitors also will have an opportunity to attend two other events at the university on the same days. Aviation students will have an open house at the U. of I.—Willard airport, and in the Assembly hall, Pershing Rifles, military society, will be holding its annual invitational drill meet.

The largest collegiate competition of its kind. All events are free.

# SOCIETY

**ENGAGED.** Miss Karen Dee Felker, a bride-to-be. Her betrothal to Dennis L. Hecht, a son of Mrs. Dorothy Hecht, 2512 East 28th street, and the late Everett Hecht, is announced by her parents, Mr. and Mrs. Frank Felker, 2601 East 27th street.

## Hecht-Felker Engagement

Announcement is made by Mr. and Mrs. Frank Felker, 2601 East 27th street, of the engagement of their daughter, Miss Karen Dee Felker, to Dennis L. Hecht, a son of Mrs. Dorothy Hecht, 2512 East 28th street, and the late Everett Hecht.

A graduate of the Granite City high school, the bride-to-be is employed as a secretary in St. Louis. Her fiancé, also a graduate of the local schools, is continuing his studies at SIU-SW Campus, Alton center. He is employed at Kopyak's market.

## Miss Joyce Stout Is Engaged

The engagement of Miss Joyce Marie Stout, a daughter of Mr. and Mrs. Earle Stout, 2821 East 25th street, and Larry Urbanik, whose parents are Mr. and Mrs. William Urbanik, 339 Clayton road, Hillside, Ill., is being announced.

Miss Stout was graduated in 1964 from the Granite City high school and is now a junior student in Barnes Hospital School of Nursing. Mr. Urbanik received a BA degree in mathematics at Elmhurst College in 1964 and is presently teaching at the York high school in Elmhurst, Ill. The wedding date is not announced.

## EAGLES AUXILIARY HOLDS MEETING

The Eagles Auxiliary met Tuesday evening with Mrs. Ann Kopyak, president, in charge. Mrs. Florida Batson, ways and means chairman, expressed her thanks to the members for their help in a number of recent projects, and Mrs. Dolores Klesh, of the sick and visiting committee, reported on calls made.

Announcement also was made of the district meeting to be held here Jan. 16 when the Auxiliary will serve the dinner. The prize for the evening went to Mrs. Rinda Brown and the hostesses, Mrs. Fay Briggs and Mrs. Caroline Moser, served refreshments to 20 members.

**MILLER'S DRUG STORE**

**MISS JOYCE MARIE STOUT, 2821 East 25th street.** Her parents Mr. and Mrs. Earle Stout, have announced her engagement to Larry Urbanik, a son of Mr. and Mrs. William Urbanik of Hillside, Ill.

## Initiation Dinner Of Eta Chapter

The Eta chapter of Phi Tau Omega sorority held an initiation of new members at Cheshire Inn, Clayton, Wednesday evening. The initiation was preceded by a dinner. Decorations and favors were in a Christmas theme. The new members are Mrs. Janet Goewert, Mrs. Margaret Yackel, Mrs. Dorothy Costello, Mrs. Wilma Long and Mrs. Judy Adams. Guests attending were Mrs.

Mary Lou Richeson, Mrs. Shirley Morgan, Mrs. Majoria Stevenson, Mrs. Jo Ervay and Mrs. Kitty Bloodworth. Also present was Mrs. Harriett Horn, who is resuming her active status Jan. 1. Thirty-eight attended.

Those winning prizes were Mrs. Horn, Mrs. Dolores Siebert, Mrs. Norma Yelton, Mrs. Mary Evelyn Yenko, Mrs. Lois Winter, Mrs. Morgan and Mrs. Charlene Voss.

**MISS LINDA JONES, fiancée of A 3/c Roger K. Ellsworth, a son of Mr. and Mrs. Robert Ellsworth, 1961 Spruce street.** The bride-to-be is a daughter of Mr. and Mrs. Harry E. Adamson, 2709 Ralph street.

## Summer Wedding Being Planned

The engagement of Miss Linda Jones, a daughter of Mr. and Mrs. Harry E. Adamson, 2709 Ralph street, and A3/C Roger K. Ellsworth, a son of Mr. and Mrs. Robert Ellsworth, 1961 Spruce street, is among many announced during the holiday season.

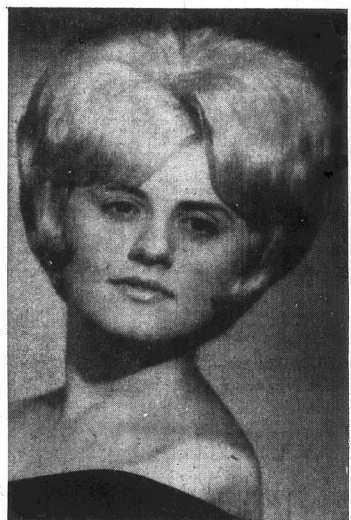

Airman Ellsworth, stationed at Shaw AFB in South Carolina, is home on leave. Miss Jones, a graduate of Granite City high school, is employed in St. Louis. The wedding will take place during the summer.

## RETURN TO NEW YORK

Mr. and Mrs. William A. Russell II left Monday for their home in Binghamton, N. Y., after a holiday visit. Mrs. Russell is the former Judy Range and her parents, Mr. and Mrs. Leroy Range, reside at 2436 Grand avenue. Russell's parents, Mr. and Mrs. W. A. Russell, live at 3123 Aubrey avenue.

**BETROTHED.** Miss Pamela Sicking, a bride-to-be. Her engagement to Jerry T. Stroud, a son of Mr. and Mrs. Melvin Stroud, 2614 Cayuga street, is announced by her parents, Mr. and Mrs. Loren Sicking, 2496 Stratford lane.

**MISS JANICE ANN MILLER, whose parents, Mr. and Mrs. Arthur Miller, 66 Cambridge drive, are announcing her engagement to Kenneth Hubert, a son of Mr. and Mrs. Fred Hubert, 1908 Johnson road.**

## Party Honors College Students

The annual get-together party of young people from First United Presbyterian Church and St. Peter United Church of Christ home from colleges for the holidays was held Monday evening at the Presbyterian Church.

A buffet dinner was served, and afterward Mrs. Arthur Buente entertained the group with a Christmas reading. Slides of the Holy Land were shown by Mr. and Mrs. William Huxel.

Those attending were Connie Mathews, Joan Maddox, James Randall, Gary Geroff, Jeanne Jungels, James Harsh, Ruth Johnson, Bonnie Schmedake, Joyce Whittle, Ted Bourdon, Bob Karandjeff, Alice Jackson, Kenneth Weinand, William Ebrecht, Nancy Edwards, Ruth Maxton, Hoi Chen Nguyen of South Vietnam, Carole Cuchna, David Bourdon, Terry Van, Charlone Landis, Thomas E. Coe, Cathy Coe, Ruth Baumann, all students, Mr. and Mrs. Albert Busch, Rev.

## Hubert-Miller Engagement

Miss Janice Ann Miller is engaged to Kenneth Hubert, a son of Mr. and Mrs. Fred Hubert, 1908 Johnson road. The announcement is made by Mr. and Mrs. Arthur Miller, 66 Cambridge drive, parents of the bride-to-be. Miss Miller and her fiancé are graduates of the Granite City high school. She is employed in St. Louis. Mr. Hubert is an employee of the Bellemore Toy and Sporting Goods Co.

**HERE FROM SOUTH**  
Mr. and Mrs. Arthur Bedelan and son, Arthur Jr., of Memphis, Tenn., and George Donjoian of Los Angeles, Calif., are spending the holidays with their parents, Mr. and Mrs. Thomas Donjoian, 1745 Poplar street, and brother-in-law and sister, Mr. and Mrs. Larry Reed of Hazelwood, Mo.

David B. Maxton and Mrs. Maxton, Mrs. Marie Whittle, Mrs. W. Doves and Rev. and Mrs. Robert Baumann.

**MRS. HAROLD E. TANKSLEY, the former Linda Williams, daughter of Mr. and Mrs. Herbert R. Williams, 4245 Lake drive, whose wedding took place recently at Glenview Chapel, Wilson and Maryville road.** The bridegroom's parents are Mr. and Mrs. Charles Tanksley, 2711 East 23rd street.

## Engagement Is Announced

Announcement is made of the engagement of Miss Cynthia Jean Slattery, a daughter of Mrs. Ginger Warren, 2513 North street, and James William Colp, a son of Mr. and Mrs. William Colp, 4101 Kirkpatrick Homes.

Miss Slattery is a senior at the local high school. Mr. Colp was graduated from the high school in 1964 and is employed in the offices of Granite City Steel Co.

# Pictures Tell Story of 1965 in Quad-Cities

**UNION STARCH & Refining Company workers**, members of Oil, Chemical and Atomic Workers Union, local 7-663, went on strike July 4 and the following month this group of strikers' wives marched through downtown Granite City in a demonstration urging

public support of the walkout. Unable to reach agreement over several major issues, the strike still was under way as the year ended, marking 180 days the 420 strikers have been off the job.

**EXPANSION** of the Granite City Steel Co. plant at a cost of more than \$140,000,000 progressed rapidly in 1965 and included razing of the residential area on the east side of the plant. Piles of rubble that once were

homes in the behind-the-mill area shortly after bulldozers rolled through the area to push down the frame residences and stack the debris.

**FIRE SWEEPED** the Steinberg Furniture Co. building at 1825 State street on the night of Feb. 3 in one of the city's largest fires during the year, causing damage estimated between \$100,000 and \$125,000. The store, owned by David Steinberg, was completely rebuilt and reopened last month.

**A GRANITE CITY GIRL**, Miss Kathy Oros, was crowned "Miss Illinois" during 1965, and participated in the Miss America Pageant at Atlantic City, N. J., in September. Here Miss Oros is shown at a reception with her escort, Noel Watkins. At left, Miss Oros, and Gov. Otto Kerner.

**EXPANDED OPERATIONS** at the Tri-City Regional Port on the Chain of Rocks Canal were developed during 1965 and construction of additional facilities was planned. One of the larger shipments of

the year is shown here when tank cars containing 1400 tons of soybean oil arrived from Decatur to be shipped by barge to New Orleans. The transfer was handled by National Marine Service, Inc.

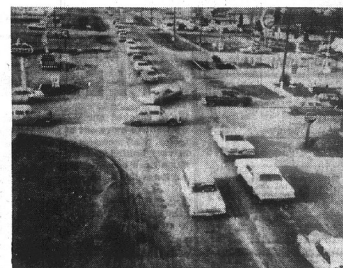

**OPEN DUMPS** like this one in Chouteau township became the target of state, township, county and state officials during the year. Chouteau township conducted a clean-up campaign to eliminate such sites.

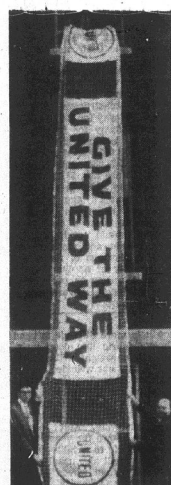

Granite City, Madison and Venice had their troubles with state air pollution control officials who ordered the three cities to discontinue burning at their city dumps and employ some other type of refuse disposal.

**OPENING OF COLONNADES** Nursing Home, providing complete, modernized living quarters and medical facilities for the elderly, was among major developments of 1965. Here, several patients enjoy piano music in one of several recreation rooms.

**CONGESTION** on Nameoki Road continued throughout the year, as evidenced by this photo, while highway officials completed plans for its improvement to a four-lane highway. A delay in improvement of the road developed, however, when state highway officials announced they were out of money, could not start construction in 1965. As the year neared its end, officials announced plans to call for bids next month.

**QUAD-CITYANS GAVE** to the United Fund campaign, headed by John R. Hundley and Carl Mathias, and topped the \$348,500 goal by \$1221 during 1965. It was the second year in a row for the community to top the goal for 23 local health, welfare and character building agencies.

**VIEWS OF NEW BUILDINGS** on the Southern Illinois University, Southwest-Central Campus are shown here as construction work neared completion last summer. The new buildings were opened for the fall term to accommodate a heavy influx of students as the semester opened in September.

**FIRST HEAVY SNOW** of 1965 hit the Quad-City area during the latter part of February. Drifts piled up two to four feet and slowed traffic, but did not force closing of schools. This photo of a stalled car was taken on Fehling road just north of the high school.

**HIGH WINDS** and a severe thunderstorm struck the Quad-City area in August. Among the damage was this plate glass window which blew out of a downtown Granite City Department store and blew most of the merchandise out the window, yet left this manikin standing. Workmen repair the damage in this photo.

**DONALD PARTNEY**, new mayor of Granite City, takes over his duties from former Mayor Leonard Davis during ceremonies in early May. Partney was elected in the April city elections in which Davis (left) was not a candidate for re-election.

**PARK DISTRICT** voters approved a \$475,000 bond issue to build this new skating rink and pavilion at Wilson park in a special election Dec. 18. The proposition carried by an overwhelming majority of 1225 to 319. Construction is expected to start in early spring with completion scheduled in time for the opening of the skating season next winter.

**HIGH WATER** in April made these freight cars on a siding at the Tri-City Port appear to be floating. The scene is in the Chain of Rocks Canal. Heavy rains and melting snow in the Upper Mississippi Valley caused this first high water level of the year, but several others were to follow, causing a delay in construction of the higher west wall of the Chain of Rocks auxiliary lock.

### Earmarked for Fire House?

## \$36,336 Payment from State Sought for New Police Bldg.

Construction of a new police station building was discussed again by Granite City council members Monday night, but an inspection of council records must be made to determine if funds will be available from the sale of the police department's pistol range building.

Alderman Whitmer, chairman of the Police Committee, called for the \$36,336 payment from the state highway department for the building to be earmarked for construction of new police department facilities on city-owned property adjacent to the main fire station in the 2300 block of Madison avenue.

He was interrupted by Alderman Johnson, chairman of the Finance Committee, who said he recalled council action of months ago in which any funds derived from the gunnet hut block in Lincoln Place (where the firing range is located) are to go into a special fund for construction of a new fire station in the Name-ohki area.

Recalls Old Motion Johnson added that he did not know if the council action covered sale of the firing range structure, but that he was certain any funds derived from the sale of lots is to go into the fire station construction fund.

A number of lots in the block are being sold to individuals

man Johnson, chairman of the Finance Committee, who said he recalled council action of months ago in which any funds derived from the gunnet hut block in Lincoln Place (where the firing range is located) are to go into a special fund for construction of a new fire station in the Name-ohki area.

Recalls Old Motion Johnson added that he did not know if the council action covered sale of the firing range structure, but that he was certain any funds derived from the sale of lots is to go into the fire station construction fund.

A number of lots in the block are being sold to individuals

whom houses must be moved from along Cedar street because of the right-of-way needed for new Federal Aid Route 151—the Great River Road.

The police firing range must be moved because of the right-of-way requirements for the road.

Records of the council meeting are to be searched to get the exact wording on the motion.

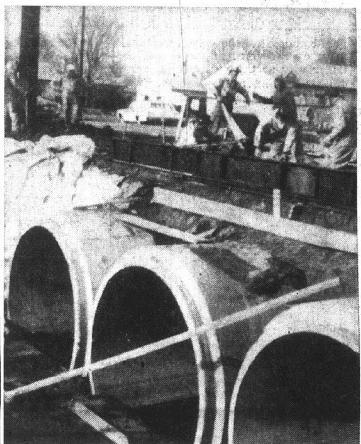

Whitmer said the police department members spent considerable time on the construction of the long, concrete block building and that they arranged for labor unions to donate time for erecting it.

The Police Committee chair-

man added that the city is planning to spend \$600 this fiscal year for improvements to the present facilities on the ground floor of the city hall building.

Chief Wallace is requesting the radio room be revamped and the squad room remodeled, as well as changes planned for other offices on the ground floor. The jail also is in need of repairs.

Alderman Nopn pointed out the city must be able to erect a new building for the police department without a bond issue election. He suggested the city explore the possibility since the county has such authority under state law to erect public structures without calling an election.

ST. CLAIR AVENUE BRIDGE widening being accomplished under a city contract to eliminate a bottleneck. The bridge is being widened seven feet and a sidewalk is to be installed.

Home Economics Extension  
University of Illinois

### Area's Highway

City by-pass grading work listed in the construction schedule.

Purchase of right-of-way for future use includes \$16,000 for easements along 2.37 miles of Illinois Route 203 from Mitchell to a point near the northern city limits of Granite City.

Much of the money and right-of-way purchases proposed for "future use" are for improvement of Bohm road and Poag road in connection with the new highway that is to enter Southern Illinois University's new Southwestern Campus.

The construction schedule for non-interstate highways calls for construction in 1966 of a \$200,000 bridge on Federal Aid Route 770 at Bohm road and Cahokia creek, and a \$300,000 grade separation on Federal Aid Route 770 at Bohm road and the Norfolk & Western Railroad, both an improvement of the improvements necessary to the S-U-W Campus.

Largest County Job Largest single construction project listed for Madison county is construction of a bridge on Federal Aid Route 155 near Wood River southeast of Alton. The project is listed at an estimated cost of \$1,200,000.

Included among Interstate construction projects are five grade separations on Interstate 55 from north of Collinsville to near Hamel at an estimated cost of \$981,000.

Interstate highway improvements also include \$467,000 worth of landscaping, sign work and construction at various points along Interstate Route 70 in Madison county.

Such projects listed for the Quad City area on Interstate 270 include a \$33,000 river bridge allotment for painting, 1.43 miles of landscaping from the river to the Chain of Rocks canal bridge, \$29,000; bridge painting, \$20,000; and landscaping \$2000 at the Chain of Rocks bridge.

Landscaping for 1.8 miles from near Mitchell to the canal, \$28,000; lighting installations at the Chain of Rocks and 270, estimated at \$89,000; lighting and landscaping east of Mitchell, \$80,000; lighting and landscaping on Route 270 at Route 111.

District Gets \$28,007,000 Highway Improvements and district highway costs for District 8 of the Illinois Highway Department, which includes Madison county, is \$28,007,000. The district includes, in addition to Madison county, St. Clair, Bond, Monroe, Montgomery, Macoupin, Greene and Clinton. Most of the highway work is scheduled in Madison, St. Clair and Bond counties.

The overall program for all of District 8, which has headquarters at French Village, includes: Interstate—construction, \$14,263,000; right-of-way for 1966, \$45,000 and right-of-way for future use, \$3,803,000; non-interstate—construction, \$8,055,000; right-of-way for 1966, \$235,000, and right-of-way for future use, \$1,215,000.

Venice city officials were told several weeks ago that the Broadway underpass project, estimated to cost a total of \$1,200,000, would not be in the city's budget and work scheduled due to a shortage of funds and the necessity of applying available state money on projects in which the federal government is to pay a share.

since it is more difficult to bend a heavy fabric into deep wrinkles, and the weight of the fabric tends to pull out wrinkles.

Another generalization is that the looser the construction of the fabric, the more wrinkle-free the garment will be during wear and laundering. Likewise, loosely woven fabrics perform better than more tightly woven fabrics.

Interstate highway improvements also include \$467,000 worth of landscaping, sign work and construction at various points along Interstate Route 70 in Madison county.

Such projects listed for the Quad City area on Interstate 270 include a \$33,000 river bridge allotment for painting, 1.43 miles of landscaping from the river to the Chain of Rocks canal bridge, \$29,000; bridge painting, \$20,000; and landscaping \$2000 at the Chain of Rocks bridge.

Landscaping for 1.8 miles from near Mitchell to the canal, \$28,000; lighting installations at the Chain of Rocks and 270, estimated at \$89,000; lighting and landscaping east of Mitchell, \$80,000; lighting and landscaping on Route 270 at Route 111.

District Gets \$28,007,000 Highway Improvements and district highway costs for District 8 of the Illinois Highway Department, which includes Madison county, is \$28,007,000. The district includes, in addition to Madison county, St. Clair, Bond, Monroe, Montgomery, Macoupin, Greene and Clinton. Most of the highway work is scheduled in Madison, St. Clair and Bond counties.

The overall program for all of District 8, which has headquarters at French Village, includes: Interstate—construction, \$14,263,000; right-of-way for 1966, \$45,000 and right-of-way for future use, \$3,803,000; non-interstate—construction, \$8,055,000; right-of-way for 1966, \$235,000, and right-of-way for future use, \$1,215,000.

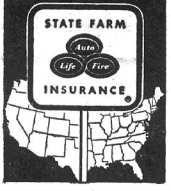

Venice city officials were told several weeks ago that the Broadway underpass project, estimated to cost a total of \$1,200,000, would not be in the city's budget and work scheduled due to a shortage of funds and the necessity of applying available state money on projects in which the federal government is to pay a share.

since it is more difficult to bend a heavy fabric into deep wrinkles, and the weight of the fabric tends to pull out wrinkles.

Another generalization is that the looser the construction of the fabric, the more wrinkle-free the garment will be during wear and laundering. Likewise, loosely woven fabrics perform better than more tightly woven fabrics.

It would be difficult to find clothing having all of these characteristics. But having the right combination of some of them will minimize the care that is required.

U.S. Ag. Dept. Milk Hearing in Chicago

The U.S. Department of Agriculture will reconvene a public milk order hearing in Chicago Feb. 1 to consider proposed changes in prices paid farmers for milk sold in Chicago and 11 other midwest federal order markets.

Several new proposals which would apply a different approach to the pricing of fluid milk in the midwest have been added to the agenda.

Scheduling of the new hearing follows hearings two months ago in which the milk price for the December quarter was left unchanged. Milk wholesalers at dairies said failure of the agricultural department to order the usual seasonal decrease in milk prices to farmers eventually may increase the price to retail purchasers.

The Feb. 1 hearing is to be held in the Pig Congress Hotel in Chicago, beginning at 10 a.m. One of the added proposals scheduled for discussion would base the milk price on economic indexes reflecting personal income, consumer prices and prices received by farmers, instead of on manufacturing milk prices paid by Minnesota and Wisconsin plants.

# BUSINESS REVIEW & FORECAST

## The Year Just Ending.... THE YEAR AHEAD

An Annual Press-Record Service

"Bright prospects — a high sales volume year — added growth — payroll increase — optimism — construction expansion — record shipments — better than 1965 — continued prosperity." These quotes from the accompanying articles place Quad-City area business leaders on record as forecasting that 1966 will be a year of further economic growth.

Headlining the 13th annual Press-Record Business Review and Forecast are further modernization-expansion activities relating to American Steel Foundries, the Granite City Army Depot, Southern Illinois University-Southeastern Campus and the Tri-City Regional Port District. All 30 year-end commentaries include summaries, viewpoints and predictions of interest and importance to those who live, work, play and shop in this community.

Favorable attention is called to the Air Products,

Granite City Steel and Nettle plant enlargements, further improvement of local recreation and transportation facilities and utility and commercial services, examples of increased civic pride and cooperation and the existence of conditions ideal for rapid residential, business and industrial growth.

Potential problems requiring study and action are described as including highway-street-traffic-parking improvements, provision of more apartments, drainage facilities, the rising demand for skilled labor and the impact of U. S. and foreign competition on production efficiency and quality.

The outlook is one of confidence that Quad-Cityans will deal realistically and constructively with the challenges and opportunities that lie ahead, assuring sound growth and progress in 1966 and ensuing years.

### General Steel Industries

By W. Ashley Gray Jr., President

The year 1965 was a most active one for General Steel Industries, both at the Castings Division here at Granite City and for the corporation as a whole.

During the year the consolidation of foundry operations at Granite City was completed, bringing to the Castings Division all the production and a portion of the equipment formerly located at the Eddystone, Pa., plant.

Also at Granite City the company's new Research Laboratory was completed and began to serve the several divisions and subsidiaries of the corporation.

Employment and production of railroad and industrial castings were sustained at high levels during 1965 and negotiations for new labor contracts were concluded successfully with the unions representing all employees.

The corporation experienced lower earnings during 1965, due to the fact that the Castings Division has not, as yet, realized the full potential of the consolidation of foundry operations, and the St. Louis Car Division has had a lower level of activity.

Rapid Transit  
We anticipate an increase in production at St. Louis Car and continue to be very optimistic about the long-range outlook for rapid transit and the potential it holds for that division. Also, production at the Castings Division in 1966 should continue at a high level with greater realization of benefits of the consolidation.

The National Roll Division and the Flex-O-Lite and Ludlow-Saylor subsidiaries have operated at improved rates during 1965 and are expected to continue through 1966 at very satisfactory levels.

Announcement was made recently concerning the construction by Flex-O-Lite of a second

Canadian plant near Montreal which will be in operation by late spring. This plant will serve the growing market in Eastern Canada, as well as the increasingly important European export market for their products, which include glass beads for reflective and an expanding number of industrial uses.

#### Latest Acquisition

In a further move toward healthy growth and diversification General Steel acquired Standard Pipe Protection, Inc., in December 1965. Standard is a leading supplier of protective coatings for steel line pipe and other tubular goods used for oil, gas and water distribution.

Our continuing acquisition program in less than ten years has changed the company from one which operated two steel foundries to a diversified manufacturing operation with three divisions and three subsidiaries having thirteen plants in five states and Canada.

In summary, we expect 1966 to be a better year for General Steel than 1965.

### American Steel Foundries

By A. P. Steinhilber, Works Manager

Shipments of steel castings from the Granite City plant of American Steel Foundries set an all-time record in the fiscal year ended Sept. 30, 1965.

This reflects strong demand from the nation's railroads, ASF's principal customers. The Granite City plant is a major producer of cast steel side frames and bolsters for freight cars, and sales of these products are directly affected by the railroads' freight car building program.

In the 12 months ended Sept. 30, the railroads ordered 88,000 new freight cars, nationally, up from about 82,000 a year ago. More than 72,000 freight cars were built, an 11% increase from 65,000 the year before.

This massive program to upgrade the nation's freight car fleet is continuing. As a result, sales of ASF's castings held at high levels in the December quarter.

No slowdown is anticipated in the early months of 1966, and all present indications point to another excellent year.

GC Plant Modernization  
In 1966, ASF plans a major capital improvement program to modernize portions of the finishing line at the Granite City plant. This program is vital if the company is to keep pace with railroad requirements.

Among the projects scheduled is a new, more efficient shake-out unit to initially clean castings as they move off the production line. After shakeout, the castings will be quickly cooled in a new water spray station. In contrast with the present system of air cooling, the water spray will speed final processing.

A large modern shot blast machine will be installed. This equipment will replace 25-year-old obsolete equipment and will improve the quality of cleaning, while at the same time improve

ing casting appearance. New roller conveyor systems will speed castings through the finishing line. This new equipment and processing procedure will allow an early inspection of castings processed.

The entire program will be completed in early 1967. The resulting efficiency and quality improvement will enhance ASF's ability to meet customer demand.

Employment Gain  
Better customer service will, in turn, enable ASF to continue in its role as a substantial employer in the Granite City area. During the 1965 fiscal year, the plant averaged close to 1300 employees, a sharp increase from 810 in 1963.

In 1965, the ASF plant paid \$8,780,000 to employees in wages and salaries, up from \$8,550,000 a year earlier.

During the past several months, the company and the four bargaining units representing our employees — the United Steelworkers of America, the International Association of Machinists, the Patternmakers League of North America and the International Brotherhood of Electrical Workers — have signed labor agreements ranging from one to three years' duration, resulting in substantial wage increases to all members, including improved insurance and pension benefits in the three year contracts.

New Products Developed  
ASF research and product development efforts continued to pay dividends this past year. The ASF Ridemaster truck, introduced in 1964 to more effectively cushion freight cars in high speed service, won wider acceptance. Several hundred car sets were purchased.

The ASF six-wheel truck, designed to carry huge specialized freight cars, also attracted much interest from both railroads and shippers.

Monsanto Co., St. Louis, has specified ASF six-wheel trucks for its fleet of 37 giant tank cars, each capable of transporting 22,000 gallons of chemical phosphorus. The tank cars, to be built by ACF Industries, will be among the heaviest and most efficient in the world. Each will weigh 205 tons at the rail.

ASF is proud that its newest designs are contributing to the development of such freight cars — cars which will better serve the railroads, industry and the general public.

### Granite City Steel Company

By Nicholas P. Veeder, Board Chairman & President

Nineteen sixty-five was a good year for industry and for industrial payrolls in the Tri-City area.

Our area is the dominant industrial section of the St. Louis metropolitan region, and the high level of operations at most of our manufacturing plants was to be expected in view of the nationwide economic boom.

Granite City Steel had a fairly satisfactory year in 1965. We provided employment for an average of more than 5500 men and women, about 60% of whom live in the Tri-Cities.

While final figures are not available, our 1965 payroll will be at an all-time high and will exceed \$60,000,000. The larger part will, of course, be pumped into the Tri-City economy.

We also were responsible for the development during 1965 of a substantial construction program. Our record program of modernization and expansion got off to a good start during the year.

While the steel business has been slow for the last several months, we expect operations to start to pick up in the months ahead. Our customers have made considerable progress in working down stocks of steel which they accumulated earlier in the year.

Orders Increasing  
Our rate of new order entry is improving at this time and Granite City Steel should be back at a reasonably high level of operation by some time in the second quarter of 1966.

The expansion at our plant is one of the largest construction programs ever undertaken in the metropolitan area. These new facilities will make Granite City Steel a much stronger company and equip us for the head-on competitive struggle we face with steel mills in Chicago and other areas.

We will be the first steel company in the United States to make all our steel by the basic oxygen furnace process and to roll all that steel in a new computer-controlled hot strip mill.

It is vitally important to our company and to its employees that we bring our new facilities on stream as scheduled in early 1967. We received excellent cooperation from the contractors on these projects and from the skilled building trades workers who are employed there since 1965, and we certainly hope the same conditions prevail through all of 1966.

Import Competition  
Imported steel will continue to be a troublesome problem in 1966 and, considering the vast difference in employment costs, for some time to come.

Although located in the middle of the United States, we are in no way protected against foreign competition. The Gulf Coast area is one of Granite City Steel's prime markets, and today 25% of all the steel imported into the United States comes into that region.

The impact of the foreign tonnage imported in 1965 can be related directly to the prosperity of the American steel industry and the American steelworker. It area. The completion of the

was as if some 61,000 foreign workers were pouring across our borders in 1965, collecting their pay and then going home to spend it without, of course, paying income taxes into the United States treasury.

The best way to combat the inroads which foreign steel has made in American markets is by increasing the efficiency of our own operations and further improving the quality of our products.

Each and every one of us has to recognize that his own future depends on meeting the import problem successfully.

### A. O. Smith Corporation

By Nicholas R. Brink, Plant Manager

Automotive industry sales continue to set the pace for a booming national economy.

Domestic passenger car production exceeded nine million units in the calendar year 1965 — a new all-time record and the third year in succession that sales levels remained high.

Sales of 1966 model automobiles are following a similar vigorous pattern and the industry is looking toward production in 1966 that should match or exceed the 1965 total.

The A. O. Smith Corporation, and more particularly its Granite City operation, where frames are produced for Chevrolet, is benefiting from this economic growth and from the continuing rise in auto production.

#### Capacity Operation

The Granite City Plant operated at about capacity throughout 1965, thereby providing unprecedented job opportunities. Prospects for continued high volume production and stable employment appear bright at Granite City throughout the 1966 model year.

During 1965 the Granite City operation made substantial progress in overcoming some serious production problems. By September, after almost fifteen months of unfavorable operations brought on mainly by major 1965 model changes, the Granite City Plant had achieved a more satisfactory performance.

Improvement has enabled the

plant to develop and maintain a good inventory of frames—something it had not been able to do during that period. This provides better delivery service to A. O. Smith customers.

In addition to keen competition, based largely on delivery and pricing, quality of product has become an increasingly important factor.

The American consumer expects more—in terms of quality—in the automobile he purchases. The supplier who can assure auto manufacturers high quality parts will continue to grow along with the industry and the economy.

### Illinois Power Company

By Carl E. Mathias, Service Area Manager

In most instances it is extremely difficult to forecast business of an area; the Tri-Cities area seems to be an exception, however.

Since trends established in recent years have such a tremendous impact on the economies of this community, we can have an optimistic view for 1966.

Industrial expansion by existing industries is continuing at an unprecedented pace for the Tri-Cities.

Granite City Steel's expansion is the most outstanding, but other industries are contributing considerably to the tremendous industrial growth of the area.

Some of these industries which have announced significant expansion programs are Air Products, Inc., and the Nettle Company. The Southern Illinois University campus has started operation; as more facilities become available to students, the Tri-Cities area will feel the ever-increasing business impact from this installation.

Interstate Highway  
The completion of Interstate Route 270, as well as other highway plans and construction, is most important.

When this highway network is a reality and added to our water and rail facilities, this area will be most attractive for both residential and industrial development.

The Tri-Cities Port Authority and others are continually receiving inquiries about facilities available for development in this area. The completion of the

quire additional electric transmission facilities as well as distribution lines.

We have enlarged many of our existing substations during this past year. At least two new substations will be constructed to better serve the anticipated growth as well as customers presently on our lines.

Natural gas requirements are also increasing. This will require the replacement of some of our lines to give additional capacity to the growing areas. This commodity is available in nearly all communities.

We have an ample supply of natural gas for our present needs and for any anticipated growth in the Tri-Cities area.

Improved Equipment  
In order to keep pace with the expected demand for service we plan to use even more modern equipment and techniques. A major portion of such equipment involves our automotive fleet.

It is our hope that with such modernization we shall be even better equipped to more speedily serve the needs of our customers.

Our plans for 1966 and the future, as they have been in the past, will be to continue to make available as efficiently as possible an ample supply of electricity and natural gas for all existing and future customers in the Tri-Cities area. It is apparent from the foregoing that Illinois Power Company will have an extremely busy 1966.

### Madison County Zoning Board of Appeals

By Howard W. Kaseberg, Chairman

The future always looks rosy to someone who is optimistic, and we in County Zoning have every reason to be optimistic.

During 1965, a growing respect for the protection afforded by the Zoning Ordinance has been voiced by large numbers of residents.

In the brief tenure of the ordinance, we have seen some remarkable improvements in the aspects of planned and orderly growth of the county.

During the year 1966, it is anticipated that our growth will be accelerated even more rapidly than during 1965.

Several new industries and merchandising firms have purchased sites in the county because of the protection afforded by zoning, and they anticipate starting construction as soon as the weather permits in the spring.

A few of the objectionable sights located around the countryside are beginning to disappear and this trend will increase during 1966.

#### Bigger Staff Needed

The increasing number of applications for zoning and building permits has increased the workload on the zoning office staff to the point that during 1966 some

additional employees will be required.

The Zoning Ordinance itself has been carefully reviewed and some revision has been found. It is hoped that this revision, coupled with a complete updating of the township zoning maps, will be accomplished during the ensuing year.

Passage of a bill by the State Legislature has been found. It is hoped that this revision, coupled with a complete updating of the township zoning maps, will be accomplished during the ensuing year.

Passage of a bill by the State Legislature has been found. It is hoped that this revision, coupled with a complete updating of the township zoning maps, will be accomplished during the ensuing year.

Passage of a bill by the State Legislature has been found. It is hoped that this revision, coupled with a complete updating of the township zoning maps, will be accomplished during the ensuing year.

# BUSINESS REVIEW & FORECAST

## First Granite City National Bank

By Harold R. Fischer, President

In this area, the year now closing has been good for most individuals and businesses. But that is history — 1966 is upon us.

The national and international problems and recent major developments in both are factors that have a strong influence on the local outlook for '66. Today, opinions concerning the outlook for business are more varied than usual.

No matter what your business, the Federal Government is your partner in almost everything you do. It constantly advises and admonishes you. It is one of the biggest spenders, the biggest lender and the biggest borrower in the free world. It absorbs almost one-third of the output of our factories and takes almost one-half of our profits.

**A Powerful Partner**  
It is a partner that wields a mighty club and must be reckoned with. This partner, because of the magnitude of its operations, commitments, obligations and ideals, requires that business continue at or near the level developed during 1965.

The Tri-City area, having such a wide diversification of industry and services, is greatly influenced by the wishes of your partner. That plus many local factors, assures us that

"Continued Prosperity," for all in this area, will be the byword for '66.

We have every reason to believe the natural growth of this metropolitan area, further enhanced by the construction and continued expansion of the Edwardsville campus of Southern Illinois University — together with the finalization of different facets of development on the Tri-City Regional Port operation, continued residential construc-

tion as many new people move into the area and completion of the industrial construction now in progress — will provide work for many in all lines of employment.

**Work — employment** — is synonymous with financial improvement. Despite some strikes, the unemployment rate, with minor exceptions, has declined during most of '65.

**Anticipated continued expansion** in various types of construction should further improve the situation and enable the user to expand his installment buying, thereby bettering our local economic condition.

Area growth is contagious and 1966 will witness more and more people recognizing the potentials of this area, both as a desirable place for their residence, and for business expansion.

After carefully balancing the factors of strength against weakness, of optimism against pessimism, the only conclusion that I can reach is that the economy in our area will expand at a satisfactory rate in 1966. There are always some pitfalls, some interludes in growth, but I am certain the existing basic confidence in business and other major improvements will make 1966 pleasing to all.

## Granite City Trust & Savings Bank

By Ernest A. Karandjef, President

Once again it is a privilege to review the economic condition of the Tri-Cities for the past year.

Employment is at an all-time high, our plants are expanding and receiving good future orders, our merchants are prosperous and we are moving forward at a rate never before experienced.

Nationally, a continuation of the present economic level is expected.

Two major problems face us all: A mild case of inflation and the continuing problem of a balance of payments in international trade.

For Granite City and the nation, we can only say that our economy continues to display impressive strength.

We at the Granite City Trust and Savings Bank will continue to pledge our support for the growth of our community and the nation.

With continued faith in God, our future is assured.

## Illinois Metro-East

By Chester L. Baker, President

Residential, commercial and industrial growth will continue in the Illinois-metro east area at a very favorable rate during 1966.

The Tri-Cities will certainly have exceptional growth due to the expansion of existing industries now taking place. This will accelerate both residential and commercial development.

One of the observations that I have made in my contacts throughout Illinois-metro-east was an awareness by civic leaders that industrial development was their job — and that it would play an important part in improving the economic development in their respective areas.

In most of these areas they are expanding their industrial development committees or industrial development contact teams.

**Cooperative Spirit**

I have also observed a spirit of cooperation that has developed between the chambers of commerce in Illinois-metro east and their industrial development committees. Cooperation of this kind is vital in identifying the Illinois-metro east area as a good location for industry.

If the various areas gear their programs to the guidelines and objectives set up by Illinois-Metro-East (industrial development organization), I am sure that we will have made a contribution to the economic development of the entire area.

The following are the objectives that I have referred to:

A. To promote harmonious relationships between all individuals, organizations and political bodies interested in the further industrial development of the Illinois-metro east area.

**New, Expanded Industry**  
B. To create a favorable climate for the attraction of new industry and the expansion of existing industry on both sides of the river.

C. To encourage the joint promotion of the entire Illinois-metro east area as a desirable location for industry.

D. To assist existing organizations in gathering data necessary for industrial development activities and to assist them in solving any problems which may arise during the course of their activities.

E. To encourage constructive competition among members and discourage competitive practices which tend to degrade or undermine other sections of the entire metropolitan St. Louis area.

Our major growth will stem from the expansion of existing industries producing a variety of basic materials and products which can be used by satellite industries.

Efforts of the industrial development groups should be geared to contacting those satellite industries using basic products and materials produced in the area. A continuation of stepped-up efforts by the industrial development committees of the Chambers of Commerce in Illinois-metro east will contribute greatly to our economic growth in 1966.

All veterans, peacetime and veterans whose eligibility has expired, may participate in the loan program as long as they served 90 days or more and were discharged under conditions other than dishonorable and they have not already obtained a home loan under the VA program.

**Average Age Changing**  
Important changes in the age-group makeup of the general population have been pointed out for years as having the potential to spur the industry to new heights. While these changes have been eagerly anticipated, they have not been notably effective thus far in enlarging the market.

There is a feeling the year 1966 may be the year that will first show substantial changes resulting from the population changes.

But, even without this added impetus, nearly one of three families who rent and one of ten homeowners move each year, according to the National Association of Home Builders. A major reason is the need for more room. Another is the desire for a better or more convenient location.

**Higher Cost Probable**  
The real estate purchased in 1965 will probably cost more than it would have cost in prior years. The cost of building a single family home doubled between

## Southwestern Illinois Area Planning Commission

By Harry A. Briggs, President

The Southwestern Illinois Metropolitan Area Planning Commission, during its relatively brief existence, has been engaged in a variety of programs and activities.

These programs and activities have been directed to fulfilling the Commission's responsibilities in preparing a general comprehensive plan for guiding and coordinating development in the area.

Other responsibilities include serving as a research agency, establishing a public information program and assisting local units of government with their plans and programs.

**Activities During 1965**

During 1965, the planning area of the Commission was expanded to include Monroe county, and several of the initial planning programs undertaken by the Commission were completed or nearly completed.

The first major research program of the Commission was the collection and analysis of all basic planning data including Madison and St. Clair counties.

This program, financed in part by federal funds, included information about population and economic activities, housing, transportation, land use, community facilities and utilities, local governmental functions and other such data.

Designed to insure against duplication of efforts, to establish a central information data bank and to define those areas requiring further study, this program was virtually completed.

**Citizens Building Needs**  
During this same year, a public building needs study for St. Clair county was conducted in order to obtain a comprehensive evaluation of the county's present and future building needs and requirements. This study for St. Clair county has been virtually completed.

A similar study for Madison county was initiated during this same year. This comprehensive study of Madison county's present and future building needs and requirements will be completed in mid-1966.

Also during the past year, sev-

undertaken by local and metropolitan agencies, and will assist in meeting the requirements of the Federal Highway Act of 1962 and in qualifying the metro-east area for federal funds.

**Parks, Recreation**  
The Commission is preparing to initiate an Open Space Study in 1966 so that the area can be eligible for federal monies for the development of local parks and recreation facilities.

This study will be conducted over a two-year period and will be closely coordinated with recreation and open space programs being developed at the local, metropolitan and state levels.

During the coming year, it is anticipated that a Solid Refuse Disposal study will be undertaken for the metro-east area. This program will investigate the refuse disposal practices now in existence; it will inventory and analyze existing refuse disposal systems; it will survey the salvage or waste industrial products by local industry; and it will develop a solid refuse program and further study needs for the metro-east area.

**Upgrading of Planning**  
During 1966, it is anticipated that several communities in the metro-east area will seek assistance from the Commission to prepare local planning programs. The Commission will assist Granite City in updating its comprehensive plan during 1966.

The Commission will undoubtedly be assisting other communities in updating their plans during the new year in preparing or updating comprehensive plans. Some of the communities in Madison county are now considering preparation or updating of planning programs include Edwardsville, Wood River, Madison, Vandalia, Roxana, Glen Carbon and Hamel.

With the substantial amount of growth and development that is expected to occur in the metro-east area, the need for coordinated planning will be considered.

In order to serve the needs of the area, the role of the Commission in the coordination of planning activities will undoubtedly be expanded.

## Granite City Board of Realtors

By Ray M. Kaegele, President

Realtors anticipate a year of continued prosperity in 1966.

Seldom has there been such unanimous expectation of a good year coming up as there has been for the coming year by the real estate industry in the Tri-Cities area. Despite a recent adequate supply of some types of realty, there is a general feeling that 1966 will be an active year.

Industry and commerce continue to upgrade their facilities, a trend which is paralleled in the residential field, where a good number of the best investments are being upgraded to finer houses and apartments.

**New Home Loan Program**  
Major legislation which occurred in the last quarter of 1965 and which should have a pronounced effect on the real estate industry in 1966 is the new no-down payment home loan program for veterans.

With nearly 19 million eligible veterans, Commissioner P. N. Brownstein of the Federal Reserve Administration called the program the opening of a broad, new market and said that Granite City should be a prime area for estate brokers, private builders and lenders to translate this potential into effective demand.

On the basis of recent experience in the government programs, up to three-fourths of the purchases of new homes in the area probably will be financed by the new program.

All veterans, peacetime and veterans whose eligibility has expired, may participate in the loan program as long as they served 90 days or more and were discharged under conditions other than dishonorable and they have not already obtained a home loan under the VA program.

**Word of Caution**  
A word of caution before everyone rushes out to buy land. It is a dangerous thing to go out into a suburban area on the idea that there will be a boom over there. Land prices, like the stock market, go, in cycles.

But basically the demand is there and the product is marketable. The investor must be prepared to hold on and wait for a profit.

Another disturbing factor concerning the big increase in land prices around cities is that out of a total of 13 metropolitan areas sampled by the National Association of Home Builders, there were only two that showed a decrease in the average price per acre paid for raw usable land between the period of 1960 to 1964.

The other 11 areas sampled showed an increase in the average price per acre paid for raw usable land between the period of 1960 to 1964.

Another disturbing factor concerning the big increase in land prices around cities is that out of a total of 13 metropolitan areas sampled by the National Association of Home Builders, there were only two that showed a decrease in the average price per acre paid for raw usable land between the period of 1960 to 1964.

showed an average increase of 60 per cent as stated earlier.

**Land 20% of Home Cost**

As land values increase, the cost of the home is becoming a proportionately smaller part of the total cost in buying a new home and the cost of the lot is increasing proportionately.

In less than 20 years, the typical building lot has quadrupled in price.

Land now accounts for nearly 20% of the cost of a new home as compared to 11% in 1946, nation-wide. The same situation exists.

The brightest spot on the real estate horizon for 1966 is the plentiful supply of cash stores in savings institutions. The Midwest, and the Tri-Cities area in particular, has available mortgage money for all types of real estate investment.

Mortgage rates should generally hold firm, although in the last quarter of 1965 there has been a tendency for certain types of mortgage loans to cost more at their inception.

If the economy continues at the present high level, it will be no surprise to see the cost of borrowing continuing in an upward motion in the last half of 1966.

**Exciting Downtown Progress**  
Probably the most exciting development in Granite City in 1965 is the continued improvement of the downtown area. With the establishment of the new park right in the heart of downtown, continued improvement in 1966 is assured.

Downtown renewal is not just office buildings, motels, retail stores and parking lots. It is, first of all, people. Where the people go, the buildings will follow.

In an address before the Build America Better committees of the National Association of Real Estate Boards in 1965, a speaker discussing downtown renewal said: "To make their plans big, make them comprehensive and in the middle, create a park within the park."

The status of heroic proportions will be "The Prodigal Son Who Went to the Suburbs" and the inscription underneath will say "Welcome Home."

We are on our way to having something clean and green in the heart of downtown; now all we need is the statue.

Another disturbing factor concerning the big increase in land prices around cities is that out of a total of 13 metropolitan areas sampled by the National Association of Home Builders, there were only two that showed a decrease in the average price per acre paid for raw usable land between the period of 1960 to 1964.

The other 11 areas sampled showed an increase in the average price per acre paid for raw usable land between the period of 1960 to 1964.

Another disturbing factor concerning the big increase in land prices around cities is that out of a total of 13 metropolitan areas sampled by the National Association of Home Builders, there were only two that showed a decrease in the average price per acre paid for raw usable land between the period of 1960 to 1964.

## American National Bank of Granite City

By Harold F. Karandjef, President

It seems that past forecasts for the Tri-City area have been too conservative.

For example, in 1956 professional planning advisers were hired to prophesy development of this area, and they estimated that in 1965 there would be 10,000 students in the Granite City schools.

At the time this forecast was made, 10,000 students seemed to be an extraordinarily high figure but actually in September of 1965 there were 13,402 students enrolled in our schools.

Increases in population appear to develop prosperity, so it is evidently wise to forecast that during 1966 the Tri-City area will continue to have good economic conditions, with resulting high employment and prosperity.

**Reason For Optimism**

No area in the United States provides better opportunity for economic growth than ours. Our geographical location provides transportation by air, rail, water and highway that is excellent.

The large tracts of land adjoining us provide for substantial growth for both industrial and residential purposes, and this land in many ways is superior to that elsewhere available in the greater St. Louis area.

Our highly-trained and efficient

work force provides the additional impetus to industry to locate in our proximity.

**Nameoki Road Widening**  
During 1966, Nameoki road widening may be accomplished, and we look forward to the vast improvement that will be made in flowing traffic through this area.

While the Nameoki road shopping centers have very successful brought about convenient

shopping to our residents, the development of this business area has been severely hampered by traffic congestion.

The building of many new stores, some already announced, will come about very quickly when this road improvement is accomplished.

The American National Bank has had substantial growth during 1965 in both deposits and number of customers served. We expect this growth to continue, and we have increased the number of our teller windows, improved our parking areas and increased the number of our employees so that we may continue to efficiently serve an increased number of customers.

**Community Pride, Progress**

The Tri-City area is fortunate to have many sincere civic and business leaders that are working together for the advancement of the area.

These men, working through the Chamber of Commerce, Association of Realtors and other organizations, have made much progress and continue to work diligently to promote the Tri-City area.

There are still many difficult tasks to be accomplished, and they will be done by all of us working together with pride in our community.

ress is the failure of the State Highway department to complete U. S. Highway 151 on schedule.

Numerous prospective customers of the Port cannot make definite plans to locate, either in the Port or industrial plants around the Port, until this highway actually is under construction and there is complete assurance that they will have access to this in order to be able to service the metropolitan marketing area.

The end of the year marks a culmination of the Port's efforts to provide extensive industrial sites and potential locations for new industry to locate in the Tri-City Port.

With the prospects of the present overall national economy continuing to increase at a satisfactory rate, there is no reason to believe that the Tri-City Port District should not expect extensive developments during the calendar year 1966 and subsequent years.

**New Bond Issue Planned**

The Port is presently working on a new bond issue to cover the needs of prospective tenants who are negotiating with the Port now.

The Port has a satisfactory outlook for the future tenants to locate in this presently attractive atmosphere, that is showing improvements steadily and is believed to be now conducive to new industry and new terminals.

With any satisfactory maintenance of the present economy, the Port and industrial community in the Tri-City Regional Port District area should make extensive and rewarding progress throughout the year of 1966.

**River Highway Essential**

One of the more serious things that is delaying the Port's progress

work force provides the additional impetus to industry to locate in our proximity.

One of the more serious things that is delaying the Port's progress

## Tri-City Regional Port District

By Carl A. Rantl, Chairman

The Tri-City Regional Port District's facilities that were completed under its first bond issue have now been functioning almost six months.

The use of these facilities is continuing to increase each month until it would appear that the Port District would be on schedule and that these facilities will continue to attract new customers and new cargo.

The capabilities of the facilities are such that it will be some months before their actual throughputs and capacities will start being utilized at the designed capacity.

**Cooperative Spirit**

During the past year, the Tri-City Regional Port District has enjoyed the fullest cooperation of the Tri-Cities Chamber of Commerce, the Chamber of Commerce in Belleville, East St. Louis, Collinsville, Edwardsville, Wood River, Alton, the Southwestern Illinois Planning Commission and Illinois Metro-East.

In addition to the cooperative displayed by the above and the private firms concerned with the Port, such as railroads and utilities, the Port has been the recipient of splendid cooperation from the various governmental bodies and city officials of the Tri-City area that are located in the Port District.

This spirit of cooperation is continuing to grow among the various groups, and should point to not only more industrial development over the next few years, but more satisfactory planning cooperation to get new industries and solve some of the overall problems that confront the area.

**Signs of Labor Shortage**

There are signs of serious

shortages developing in semi-skilled and skilled labor in the Tri-City Regional Port District area.

This shortage, coupled with the apparent deficiency of new sources of supply of this type of labor in Madison county, will hamper the industrial growth that is being considered by various prospective tenants of the Tri-City Regional Port District.

Efforts will be made by the Port District to cooperate with the schools and the various labor officials to insure that a smooth and continuing increase is made in providing this type of skilled labor to industry.

Along with the national prosperity, the employment of persons living in the Tri-City area appears to be at an all-time high record.

# BUSINESS REVIEW & FORECAST

## Southern Illinois Builders Association

By Clyde E. Nelson, President

The nation's largest industry, construction, is looking for 5.5% increase in the total volume of work in 1966, according to a survey of contractors throughout the country conducted by the Associated General Contractors of America.

However, such a growth in dollar volume will not necessarily result in a like increase in actual construction.

Much of it will be accounted for in wages for building trades workers which have jumped considerably—far above the national guideline in many areas.

**Big Building Volume Here**  
In the Quad-City area, we are expecting this to be a year of severe shortage in skilled tradesmen to take care of the construction volume, which is anticipated to increase far above national average.

This shortage will have to be met by attracting tradesmen from other parts into the area and employing unskilled men in highly skilled fields.

This points up the need to attract more young men into construction work and the necessity of establishing apprenticeship programs to teach

Some parts of our industry where the shortages of skilled tradesmen are the greatest are the parts that "could care less" about presidential guidelines. New contracts have been negotiated on the basis of what's good for the national economy but on a "take all you can get" basis.

With the large amount of available level ground around the Quad-City area for industrial expansion, we believe that the year 1966 is the time for all of us to decide what is best for the area and to provide our salesmen with the proper tools to enable them to attract more and more industry into the area.

This means that new contracts should be negotiated along the recommended guidelines a number of years ago.

With the prospects for a prosperous 1966 for the building trades, we hope that the plan will be made in the New Year to continue to improve the prosperity of the entire area.

**Year of Decision**  
Nineteen sixty-six is also the year of decision for the future.

Our association, working with the various unions and the federal government, is optimistic that 1966 will see a more active apprenticeship program initiated for all the trades so that the fine quality of work we have always been proud of can be maintained.

**Year of Decision**  
Nineteen sixty-six is also the year of decision for the future.

Our association, working with the various unions and the federal government, is optimistic that 1966 will see a more active apprenticeship program initiated for all the trades so that the fine quality of work we have always been proud of can be maintained.

## East St. Louis & Interurban Water Company

By James G. Carns, Jr., Vice-President & Manager

While East St. Louis and Interurban Water Company reviews its plans and forecasts each year, this is done on the basis of a larger, long range master plan designed to meet requirements of the system as much as ten to fifteen years ahead.

In looking forward to 1966 and beyond, our plans for plant expansion and improvements are predicated on a sustained, continued growth in the area served.

For 1966 we anticipate, and have authorized, an amount in excess of \$1,600,000 for construction of new facilities throughout our entire service area.

**New Water Main Here**  
We anticipate that much of this new construction will take place in the Tri-Cities area.

In fact, a current project well under way is the extension of a large transmission main east along Route 162, then north along Route 111.

along the entire route of the main and further extension into a large undeveloped area, north and east of the terminus of this project.

**Gallons by the Billion**  
During 1965, we will have delivered approximately two billion, 400 million gallons of water to our customers in the Tri-Cities area.

This is a significant figure, involving in excess of 10,000,000 tons of safe, potable water.

Based on past performances and taking into account several factors—such as new customers and weather and rainfall data—our projections indicate continued forward progress in the Tri-Cities area.

**East St. Louis and Interurban Water Company** is proud to have played a part in the expanding growth of the area and to continue its efforts toward making our service area even more attractive and a better place for our citizens to live and work.

This project involves installation of several miles of main at a cost of over \$100,000, and will make possible new development

## Bi-State Development Agency

By C. E. Townsend, Chairman

Bi-State Development Agency, which since 1949 has been serving this metropolitan St. Louis area (Madison, St. Clair and Monroe counties in Illinois, and the city of St. Louis, St. Charles, Jefferson and St. Louis counties in Missouri), anticipates continued improvement and expansion of existing operations in 1966.

These include the Granite City Harbor, where a public terminal and Granite City Steel Co. share loading and shipping facilities, and the unified metropolitan areawide transit system, just recently revised to provide intercity service between the Quad-Cities and the Alton-Wood River area.

Bi-State has placed an order, for delivery in the spring of 1966, of 50 new air-conditioned buses, at a cost of \$1,600,000. This brings to 220 the number of such new buses purchased since the Agency acquired and merged 15 separate transit firms less than three years ago, substantially more than had been bought in the previous 10 years.

Elimination of "closed door" operations of the prior owners also has been achieved.

**Arch Tourist Access**  
Next year, the new St. Louis riverfront Gateway Arch is scheduled for completion and the first sightseers to the 630-foot tower will ride an inside transportation system, paid for and operated by Bi-State Agency.

Without the financial assistance of Bi-State, which sold \$3.3 million in revenue bonds to construct these facilities, there would have been no tourist access to the break-taking launch at the top of the Arch.

Bi-State Parks Airport, located just south of East St. Louis, will be fully operational in 1966.

All work on runways, taxiways, buildings and other facilities on the 664-acre tract will be finished, representing an investment in excess of \$3 million to serve private and business aircraft. Too much cannot be said of the excellent cooperation given in the development of this project by the State of Illinois, the City of St. Louis and the federal government.

Besides the above existing activities of Bi-State, the consulting engineering firm of Parsons Brinkerhoff-Tudor-Bechtel, in as-

sociation with Sverdrup-Parcel and Associates, have been selected to prepare an areawide rapid transit study at an estimated cost of \$650,000, one-third to be borne locally and the remainder to be a federal grant.

Regarding 18 to 24 months, this study will provide the framework within which a rapid transit system can be developed in the next decade.

**Coordinating Council**  
The Council, made up of public officials, has equal representation from the bi-state area in both states, and has created to comply with the Federal Highway Act of 1962. Under this act, in order to be eligible for federal highway funds after Jan. 1, 1965, highway projects must be based on a metropolitan areawide transportation planning process.

Objective of the Council is to undertake—starting early in 1966—a \$2 million, four year land use

and transportation study. Application will be made shortly for a \$400,000 federal grant which will be augmented by local funds estimated at \$6 per capita annually.

Bi-State Agency's rapid transit study will become an integral part of the Council's more comprehensive, coordinated transportation planning process.

The Interstate Air Pollution Survey, begun nearly three years ago with Bi-State Agency participation, also should have its final report ready shortly after Jan. 1, 1966, for perusal by public and industry interests.

The building department, formerly housed the Joint Department were converted to increase our Reinforcing-Bar Fabricating Department.

At our Alton Works, two large electric furnaces were installed to give Laclede additional steel-making capacity to better serve our midwestern market. When these furnaces are coupled with a new, six-strand continuous casting machine late next year, Laclede will again be able to increase sales.

**Equipment Replaced**  
Some heavy rolling mill equipment is being replaced for quality reasons by pressure casting equipment. For economic reasons, continuous casting machines are replacing soaking pits and blooming mills.

Finishing mill equipment can

be replaced for quality reasons by pressure casting equipment. For economic reasons, continuous casting machines are replacing soaking pits and blooming mills.

## Madison County Farm Advisor

By Truman W. May

The past year was a fairly good one for most farmers of this area. At present it appears that 1966 should also be reasonably profitable.

The high crop yields of 1965, especially for corn, soybeans and wheat, can be repeated in 1966 — which, of course, depends greatly on the weather—and good prices for hogs and beef cattle continue, 1966 will be a good year on the farm.

Livestock production has increased considerably in Madison county during the past few years. Beef cattle have replaced dairy cows on several hundred farms, although milk production is still very important. Dairying provides a steady income all year, but prices of milk and other dairy products have not been as favorable for the farmer compared to prices of meat animals.

**Expected Higher Prices**  
Prices of cattle, hogs and lambs next year will likely average higher than in 1965. These price gains should more than compensate for expected slight declines in marketings, and cause a further increase in cash returns.

Fed cattle prices next year are expected to continue strong and average about the same or slightly higher than in 1965, although fed beef production will probably increase somewhat.

Positive factors include reduced nonfed beef supplies, smaller supplies of other red meats and continued strong consumer demand. However, a bunching of marketings likely would lead to substantially lower prices for short periods.

Continued strength in hog prices is likely next year, and prices probably will average around 1965 levels. However, most of the strength will occur during the first six to eight months of the year in 1966, when prices likely will drop below those of this fall as slaughter supplies increase.

**Grain Crop Sales**  
Most of the farm income in the area around the Quad-Cities comes from the sale of crops.

The improvement of crop varieties — corn, soybeans and wheat—the use of more fertilizer, better weed and insect control with chemicals and more efficient machinery are the most important factors that have increased crop yields in recent years. There is no reason this improvement should not continue.

These increases in production per acre mean more gross income, more money in circulation. At the same time, the farmer has the problem of increasing costs. These costs include taxes, machinery and equipment, labor, and other operating expenses like seed, feed, fer-

tilizer and various supplies. Specialized crops in this area, such as sweet corn, horseradish and vegetables add much to the farm economy. Acreages and production of these high-income, high-expense crops will be maintained, perhaps increased.

High property taxes on farm land have become a more serious problem every year, especially in this community. The tax per acre on some of the land is \$15 or more per acre.

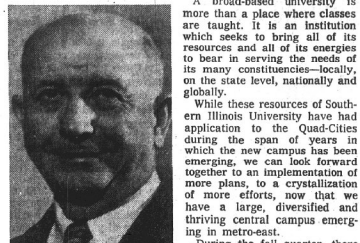

**378% Tax Rise in 25 Years**  
Property taxes on farm real estate in Illinois reached a new high in 1964, bringing in \$12 million as compared with \$134 million in 1939 and \$89 million in 1949. Since 1949, Illinois farm land taxes have increased 378%, according to a report from the College of Agriculture, University of Illinois.

The average per-acre tax of \$4.69 on Illinois farm land is exceeded only by California with \$5.69. The high momentum, counting all states with substantial agricultural production. In addition, Illinois was first among all agricultural states in the income taken for real estate taxes—16% of net farm income and 6% of gross income.

The property tax is the primary source of support for local government in Illinois, furnishing about 65% of the total revenue. The increased need for revenue stems primarily from increased school enrollment. Higher operating costs of township, county and municipal governments, higher salaries and more welfare payments also contribute.

Many people believe that higher revenue needs are cause for an appraisal of the tax system to consider whether it is reasonably fair to taxpayers, and what improvements or alternative kinds of taxes would make it more equitable.

The proposed constitutional changes in the revenue article to be voted on in 1966 will offer some choices.

## Southern Illinois University

By Dr. Delgie W. Morris, President

A broad-based university is more than a place where students are taught. It is an institution which seeks to bring all of its resources and all of its energies to bear in serving the needs of its many constituencies—locally, on the state level, nationally and globally.

While these resources of Southern Illinois University have had application to the Quad-Cities during the span of years in which the new campus has been emerging, we can look forward together to an implementation of more plans, to a crystallization of more efforts, now that we have a large, diversified and thriving central campus emerging in metro-east.

During the fall quarter, there were 1,000 Quad-City residents enrolled in the undergraduate and graduate programs at the Edwardsville campus, and the influx of students is continuing to roll in. So are the expanding programs of in-plant training and special courses conducted by the University's Technical and Adult Education Division in Granite City and elsewhere.

**Market Analysis**  
Our Small Business Institute is now developing educational programs in metro-east for owners and managers of retail establishments and will act as a liaison in providing business assistance to help solve problems of individuals.

The first report describes this

search program aimed at finding new uses is starting to pay off. Domestic mine production by 1965, and to new deposits (in Missouri), should make the United States almost, if not completely, self-sufficient. In the past, the lead supply has consisted of one-third domestic mine production, one-third secondary metal stock, and the balance from imports.

**Good 1965 Sales Volume**  
The year 1965 has been a good sales volume year with a record of sales. However, in many cases competition has been exceptionally keen. And labor costs continue to rise. Some price adjustment must ultimately be forthcoming.

Manufacturing has reached a level where 97% of all men who are able to work already have jobs, with indications that the labor market will be tighter in 1966.

The year 1966 should be a high volume year with a record of sales. However, in many cases competition has been exceptionally keen. And labor costs continue to rise. Some price adjustment must ultimately be forthcoming.

Manufacturing has reached a level where 97% of all men who are able to work already have jobs, with indications that the labor market will be tighter in 1966.

area through retail and wholesale trade, manufacturing, employment, income and financial resources. Population for the Quad-Cities is expected to reach 2,300 at the end of 1966 — a growth of 5200 since the 1960 census.

**\$8½ Million Payroll**  
The Quad-Cities area has approximately 120 academic, administrative or civil service persons on the Edwardsville campus, with a total yearly payroll of about \$7.5 million. In addition, 700 to 800 students who work part time for the University earn roughly \$1 million.

Beyond this direct impact, the housing industry will grow and shopping facilities and other services will expand to keep pace with growth of the University.

The construction program on the new campus is also important. Approximately 80% of the original construction has been completed, and the balance of the first phase should be completed during the next 12 months.

A second phase of over \$6 million should commence by next spring and a continue through the next two years. This should continue to provide jobs for hundreds of construction workers coming largely from the Quad-Cities and other communities in the metro-east area.

The Public Administration and Metropolitan Affairs Program is concerned with studying social and economic problems of the metro-east area. Among its many studies which are pertinent to this "business forecast" are an "Inventory of Economic and Population Data for Metro-East" and "The Impact of Expanded University Employment at SIU, Edwardsville."

Manufacturing has reached a level where 97% of all men who are able to work already have jobs, with indications that the labor market will be tighter in 1966.

The year 1966 should be a high volume year with a record of sales. However, in many cases competition has been exceptionally keen. And labor costs continue to rise. Some price adjustment must ultimately be forthcoming.

## Granite City Plan Commission

By William F. Hoelscher, Chairman

The Granite City Plan Commission had an eventful year during 1965.

In several respects, it anticipated the future. It was a year of decision for the people of our community.

In order to facilitate its operations, early in 1965 the Plan Commission developed the following organizational structure:

**Committee Structure**  
Chairman — William F. Hoelscher.

Vice-Chairman and Chairman of the Zoning Subcommittee — E. G. Schmitt.

Annexation — Henry Gabriel.

Master Plan and Ordinance Revision Coordinator — David Morgan.

Park District Coordinator — Barry Loman.

Sewers and Drainage — Henry Lueders.

Street Improvement Survey — James Holland.

Traffic Control Coordinator — Fred Goetz.

Transportation — William B. Brooks.

At the first meeting, members were added to the board during 1965: Curt Blevins and Bill Mih.

**25 Rezoning Petitions**  
During 1965 the Plan Commission considered some 25 rezoning petitions for rezoning of property. The most important, from a "planning standpoint," were petitions for commercial and industrial developments and apartment-duplex projects.

A large industrial expansion projects were approved for Granite City Steel Company and the American Iron and Steel Institute show that steel consumption in the United States in 1964 was 97 pounds per capita.

This is the highest figure in the history of our country and shows that the demand for steel per capita is increasing in a rapid manner with an expanding population.

It is easy to understand, therefore, why we at Laclede can see increased sales, employment and earnings through modernization and expansion in 1966 and the following years.

east of Maryville road off Pontoon road for a residential-apartment-commercial complex of considerable size and importance.

Two additional tracts of land are now under consideration for annexation for an apartment project and a mobile home park.

**Plan Updating, Sewers Needed**  
The two principal problems faced by the Plan Commission in guiding the rising tide of new development in Granite City are the need for an updated Master Plan and the completion of sewers should drainage project be begun in 1962.

The first problem is now being solved by the Southwestern Illinois Metropolitan Area Planning Commission, which is updating the Master Plan, redoing the Zoning Maps and amending the Zoning Ordinance under a \$15,000 contract with the city.

The second problem, relating to the need for a separate sewer system for Granite City, is one that can only be solved by the city and its mobile home park.

Our new sewage treatment plant opens in the spring, we will be able to effectively treat twice our daily dry-weather flow.

If the combined sewers

# BUSINESS REVIEW & FORECAST

## Dow Chemical Company - Madison Plant

By Gerhard Ansel, Plant Manager

In keeping with our company's expansion into global markets, we are now identified as The Dow Chemical Company, Madison Plant, replacing our previous identification as The Dow Metal Products Company.

This has the effect of bringing all manufacturing efforts under one authority for a worldwide effort in all product lines, rather than emphasizing any one particular product by itself.

The key thinking is for a common manufacturing effort on a global basis.

**Record Production**

Total pounds produced at Madison in 1965 increased by 20 million to 100 million pounds — an all-time high at our plant for both production and income, with the plant currently operating at close to capacity levels. This increase has been largely in aluminum and in commercial markets.

Extruded sections in magnesium for luggage and in aluminum for the Boeing commercial 727 and 737 aircraft have figured heavily in this growth.

Basic rolled products for general industrial applications and general extruded products have also been strong commercial contributors.

In the military market, extruded aircraft landing mat, extruded large-diameter pipe for applica-

Gerhard Ansel, Plant Manager

tion in the aerospace industry remain strong at approximately 1964 levels. We are the only successful developmental supplier of extruded landing mat for the services — Army, Navy and Air Force.

**Maintains High Employment**

Employment rose by some 150 persons to a total of 100, and it is expected that approximately this level will be maintained.

Successful and timely negotiations in August of this year assures for company and employees alike a stability to meet the

challenge and promise of 1966.

**Our safety record showed a modest improvement overall with one operating department accomplishing the rather remarkable feat of completing three years without a lost-time or disabling injury.**

As indicated by recent government release of stockpiled metal, aluminum remains in relatively short supply but should be sufficient to meet expected 1966 growth. Although aluminum prices have firmed somewhat, the industry is still faced with the problem of beating cost competition with other structural materials. Hence, pricing will continue to be tight in a highly competitive market.

**New Extrusion Press**

To help gear up for next year's year-end and extrusions for mid-year, a new, 1800-ton extrusion press so that we may better compete in the commercial market for soft aluminum alloys.

Production of heavy plate for military armored vehicles and a new 27 aircraft have figured heavily in this growth.

Successful and timely negotiations in August of this year assures for company and employees alike a stability to meet the

challenge and promise of 1966.

## Inquest Set Today For Kentucky Man, 76, Found in Lake

An inquest will be conducted at 6 p.m. today in the death of Ernest Wheeler, 76, of 1213 Woodland avenue, Owensboro, Ky., who was found shortly before noon Monday in shallow water near the bank of Horseshoe Lake, two miles off Highway 203, off Bend road.

The cause of death has not yet been determined. No marks were found on the body and foul play is not suspected. A preliminary examination established the death as an accidental death.

Deputy Coroner Alvin Cease, who was called to the scene along with Madison county sheriff's deputies, said that Jost, 11, of 816 Layton road and his brother, Larry, 9, were walking along the road when their dog began barking at the water's edge.

The two boys investigated and found Mr. Wheeler lying on his back in the shallow water, partially concealed from the road by overhanging bushes. Mr. Wheeler had left Owensboro on Dec. 19 enroute to St. Louis, where he was to attend a Christmas party given by Mrs. Wheeler for about three years. He was a retired switchman for the railroad company, a subsidiary of Anheuser-Busch Inc.

He was a resident of St. Louis, where he had lived since 1940. He was married to Mrs. Wheeler, who resides in the St. Louis area, however, no report seeing him.

Mr. Wheeler was born in Owensboro, Ky., and had resided in St. Louis for about three years. Previously, he had lived in the St. Louis area. He is survived by his wife, Mrs. Addie Wheeler, six sons, four daughters and several grandchildren.

Funeral services were held yesterday in St. Louis. Other arrangements are given in today's obituary column.

**Vandals Break Windows**

Two storm windows at the home of George Hurrell, 20 Broadway, Venice, were broken Monday night, apparently by vandals, according to a report to Venice police by Helen Scarlett, 1510 Seventh street, Madison. She said she checked Hurrell's residence and discovered the broken windows. Nothing was taken from the place, police said.

**Stagner Completes Course**

Archie D. Stagner, 2637 E. Edwards street, local representative of Metropolitan Life Insurance Co., has returned from New York City where he participated in a special advanced training course relating to estate planning and business life insurance underwriting. He recently was appointed consultant and will continue his insurance sales from the local office.

**Undergoes 11th Operation**

Clifford (Pete) Green, 1516 Sixth street, Madison, is a patient at St. Mary's Hospital, East St. Louis, where he underwent the eleventh operation as a result of burns incurred while employed as an electrician on construction work Aug. 4, 1964, near Caseyville.

**Speeding Charge Filed**

John T. McFee, East St. Louis, was arrested at 6:45 a.m. Wednesday at East 20th and Omaha streets on a charge of speeding. He was summoned for a hearing by Jan. 14.

## GC Strengthens Parking Law Enforcement

Amendments to the city's parking meter and "non-moving traffic violation ordinances" were approved Monday night to permit the city to send notices to violators refusing to pay fines and to issue warrants five days after the notices go out.

The amendments were prepared by City Atty. Richard Allen after it was noted the existing ordinances covering parking meters and non-moving traffic violations carried no provisions for follow-up action by the city or police department if the fine was not paid.

Several months ago, when the city adopted a blanket non-moving traffic violation ordinance, it was proposed that traffic tickets be printed in envelope form to permit mailing of the fines rather than a court appearance. The envelope tickets have not been readied.

Under the parking meter ordinance amendment, the fines are to range from the present \$1 up to \$10 for each offense, and the \$1 fine applies for the first 24 hours after the violation ticket is issued. If the fine is paid within 48 hours, the fine is to be \$2.

The non-moving traffic violation ordinance amendment specifies fines of \$3 to \$10 for each offense. The \$3 fine is to be imposed for the first 24 hours after issuance and will be increased to \$5 after the 24-hour period.

**By City Plan Commission**

A public hearing on proposed Granite City zoning ordinance changes, particularly providing for mobile home parks, will be held by the Granite City Plan Commission at 1:15 p.m. Jan. 13 in the city council room of city hall.

William F. Hoelscher, commission chairman, said the current ordinance has no provisions for mobile home parks, which he said are distinct from trailer courts. Other proposals involve special use permits for professional offices in residential districts factoring four-lane avenues, and amending the language of the ordinance involving trailers.

Hoelscher said city council approval of recommended changes will be required for them to be adopted, but that the Plan Commission could not act on requests for mobile home parks if they are not covered in the zoning ordinance.

**Park Dimensions**

Hoelscher said that after studying the best ordinances in the nation, it is being proposed to permit mobile home parks if they contain at least 50 units on at least 10 acres of ground.

The proposal would limit eight units to an acre, and such developments would constitute luxury mobile homes and developments, including service buildings, recreation areas and perhaps swimming pools.

Each would consist of a minimum of 3000 square feet and be at least 30 feet wide. There also would be space for drive-ways at least 20 feet wide with unobstructed access to an interior parking street of at least 24 feet in width, in addition to walkways at least two feet wide leading to service buildings and recreation areas. All roads and walks would be surfaced and lighted at night.

**Mobile Homes Larger**

Hoelscher pointed out that many mobile homes now can be expanded to an average of 24x54 feet, containing three bedrooms and two baths, and requiring more than 1000 square feet of space for the structures alone.

The proposals re-define trailer camps. The parents, Mr. and Mrs. Clarence E. Gibson, 20, who received a report of a prowler there.

## Man Beaten at Madison Tavern Parking Lot

Frank Stark, 31, who gave addresses in East St. Louis and the 1700 block of Edwardsville road in Madison, was admitted to St. Elizabeth Hospital at 4 a.m. Tuesday for treatment of injuries which he said were received in a beating on Johnny Lewis' parking lot at Fourth street and Madison avenue, in Madison.

Three men picked up by police after the attack were taken to the hospital and viewed by Stark, but police said he refused to make an identification. The suspects were released, although police said witnesses in the tavern reported Stark had been with the three men in the tavern prior to the beating.

Stark was treated for a swollen left eye, multiple small abrasions, cuts about the face and head and pain in the lower back. Stark made his way to the Madison police station on Third street and was taken to the hospital by police.

**7 Drivers Ticketed As Police Use Radar**

Seven drivers were issued arrest tickets on speeding charges Tuesday afternoon at 2100 Benton street and on Victory street where traffic division police operated radar units. Summons hearings by Jan. 1, were held by Judge J. Fields. Rural Route One; Larry D. Rudder, 2920 Harding avenue; William A. Richter, 1580 Garfield avenue; William R. Hanks, 4100 Pontoon road; Wilma P. Manogian, 5114 drive; Raymond Phillip Kahn, 2341 Terminal avenue; and Leslie G. French, 2340 Cardinal avenue.

**Motorist Arrested After 3-Car Crash**

Three autos, two of which were parked, were damaged in Madison Monday when a car driven by Thomas L. Hedrick, 28, of 806 Grand avenue, Madison, struck the two parked vehicles in the 1300 block of Madison avenue. Hedrick's car was owned by Mrs. Hershel Bailey, 18, of 2427 Lincoln avenue, damaged on both ends, and Mrs. Shirley Zurluk, 341 Madison avenue, damaged in the rear.

Hedrick, who was driving south on Madison avenue when the mishap occurred, was arrested on a charge of reckless driving. He posted his driver's license as bond pending a hearing in magistrate's court.

**Large Box on McKinley Bridge Deters Traffic**

Wrecked autos are the customary obstacles on McKinley bridge in Venice, but police received a different type of call at 2:15 a.m. Wednesday when a bridge toll collector reported a large box was hindering traffic on the bridge span.

Police said the box measured four feet by three feet and bore an address to the Lincoln-Mercury plant at Robertson, Mo. Police called a Hiava's Tow Service truck which picked up the crate and stored it in the Hiava garage pending its release to the owner. St. Louis county police were asked to contact persons at the place to which the box was addressed.

**Collie Pup Released**

Vandals released a sable and white collie pup owned by Allen Edwards, eight, of 1642 East 23rd street. It was reported at 10:35 p.m. Tuesday. The pup was wearing a red collar. A note was left with the city humane officer.

Vandals released a sable and white collie pup owned by Allen Edwards, eight, of 1642 East 23rd street. It was reported at 10:35 p.m. Tuesday. The pup was wearing a red collar. A note was left with the city humane officer.

**Collie Pup Released**

Vandals released a sable and white collie pup owned by Allen Edwards, eight, of 1642 East 23rd street. It was reported at 10:35 p.m. Tuesday. The pup was wearing a red collar. A note was left with the city humane officer.

**Dr. SIMS says...**  
**SAFEGUARD YOUR HEALTH**  
A PUBLIC SERVICE OF THE ILLINOIS STATE MEDICAL SOCIETY

**A GRAY, GRAY WORLD FOR THE COLOR BLIND**  
Imagine a world without color in which everything is only a shade of gray.

That is the world of the totally color-blind person. Fortunately, total color-blindness (monochromatism) is rare. It is, in fact, however, that one of every 25 men are either partially or totally without true color perception. Women are more fortunate in that only about one in every 200 is so handicapped.

The mildest and most common form is called anomalous trichromatism and, in this case, a person sees some of the 130 hues of colors in the spectrum as abnormally dark.

More familiar to us are persons—technically known as dichromats—who are really "color confused."

Other types of color blind persons are: protanopes who are red-blind; deuteranopes, green-blind; trianopes, who can't distinguish blue from green or recognize violet and see yellow as gray; tetranopes, who see the entire spectrum in red or green.

**Usually Hereditary**  
Color-blindness is usually hereditary, passed on from generation to generation of male offspring through genes of the mother.

But it can also be acquired—through infection, intoxication or aging of the optic nerve.

Because of the problems of the color-blind, the world has made innumerable adjustments to help them cope with their handicap.

Engineers, for example, utilize color-coding to help them.

versally design traffic lights with the red light above the green, so the color-blind can "read" them merely through their illumination.

**Hardships Described**  
But color-blindness can cause definite hardships.

For example, The Navy and Air Force reject men who are color blind, and serious color blindness can cause problems when searching for a job with railroads, on ships or with airlines.

Jobs in paint and dye industries, positions as telephone repairmen, or radio and television engineers (because electronic wiring is color-coded), sometimes in farming (selection of ripe fruit, for example) may be hard to get for the seriously-afflicted person.

Ordinarily, most "color-blind" persons adjust to their condition by learning to recognize common objects more by their relative brightness and shape than by the color itself.

**Some Detect Camouflage**  
There are cases, in fact, where persons who are color blind or more vividly than normal are used to detect military or other camouflage invisible to normal vision.

Actually, the color-blind stigma is more apt to cause marital arguments over who is "color blind" than to cause any serious health problems.

So it ever comes to a showdown between you and your wife, don't bet. Chances are she'd be right.

Engineers, for example, utilize color-coding to help them.

1965 - - - Year Of Progress

History is easier to assess at long-range than short-range, but many of the developments in 1965 already stand out as significant. It is important that they be recalled as the year comes to an end, because sound planning must include what has gone before; the future is built on the foundation of the past.

A look back is taken in this editorial. A look ahead to the needs and issues of 1966 will be presented in the Jan. 3 Press-Record.

Two dozen occasions and series of developments best tell the story of 1965 in the Quad-Cities, a year of progress:

1. Beautiful air-conditioned classroom and library buildings were placed in use in mid-September as a major state university—the Southwest campus of Southern Illinois University—came to life on a spacious campus in the bluff area immediately east of the Quad-Cities. It will provide educational opportunities, informed leadership and cultural stimulus of great value to this fast-growing region. A drive was launched to establish an all-faiths religious center there.

2. A goal cited as having overriding importance to Granite City municipal government was achieved with the election in April of an active, full-time mayor. With 10 of the 16 aldermen in their first terms, city government took on a new and more constructive look.

3. Granite City park district residents voted 1225 to 319 this month to build an ice skating rink and year-round recreation pavilion in Wilson Park. Granite City schools relinquished the former downtown post office and, with donated funds, the park district acquired it to create a scenic park in the heart of the business district.

4. In another December bond election, Madison school voters authorized by a 934-186 vote additions to Madison high school and Dunbar grade school. Utilizing bonds voted the previous year, the Granite City Board of Education purchased Parkview elementary school and the high school, erected Parkview grade school and studied sites for new Grigsby junior high school as well as proposed Mitchell-Rose 111-Stalling area grade schools. School ownership of the Coolidge junior high campus was upheld by the Illinois Supreme Court. Venice schools completed an office building, creating more classroom space in Venice grade school. Pre-kindergarten classes were held and other locally-financed programs were planned by Quad-City schools.

5. St. Margaret-Mary parish built a parochial grade school addition as well as a church and convent. The First Assembly of God Church constructed an education building. St. Mary's Catholic Church built a new addition. St. Paul's Catholic Church a rectory. New auditoriums were built by United Pentecostal Church Hope Lutheran Church, Pentecostal Assembly Church and Central Christian Church.

6. Granite City Steel Co. began the construction phase of a \$140 million project that will enable it to produce a wide variety of products. Its steel in a basic oxygen furnace plant and to do all its rolling in a computer-controlled hot strip mill. Building trades and contractors reaffirmed their 1958 reputation for quality, efficiency and avoid jurisdictional disagreements. Air Products & Chemical Corp. enlarged its plant and the Nestle Co. unveiled expansion plans. In exchange for seven streets where it had acquired property, Granite City Steel purchased an aerial fire truck for the city.

7. Granite City annexed a 117-acre tract to be developed with rental and other housing for single and multiple families, a small shopping center, swimming pool, playgrounds, golf course, theatre and restaurant. Other apartment proposals were announced. A contract was signed to build a second 100 Anchorage apartments for the elderly. Fringe area zoning was shifted by state law to the county government, which also acquired jurisdiction in cities lacking zoning. Madison, Venice and Pontoon Beach acted to establish zoning. Nameoki and Chouteau township home building boomed.

8. Updating of the Granite City master plan was authorized by the city, school system, park district and housing authority. An East-West Gateway Coordinating Council was formed to provide continuous comprehensive regional planning in highways and other fields.

9. Right-of-way was acquired to widen Nameoki road north of Madison avenue. Stop signs were revised to expedite traffic flow, following hiring of a traffic engineer. Further steps were taken to speed improvement of Nameoki road south of Madison avenue. The Venite library was enlarged. Dow Chemical Co. continued its close association with space flight, some booms here ended. Paddlers launched a "bath and tennis club" expansion, home insurance coverage improvements were sought. Eagle Park Area installed storm drain pipes and culverts, the Madison County Economic Development Board marked the site of a new shopping center and Mississippi River trail in the Quad-City area broke all records.

10. The Granite City council began a study to plan equalization of ward size and elimination of differences in city-township precincts and polling places. The Madison County Board discussed the issue in a recent meeting. The one-man-one-vote court ruling on governmental representation.

11. Construction neared an end on a Granite City sewage treatment plant, and Madison and Venice approved participation in an East Side Levee and Sanitary District sewage treatment program for which interest was set at a fixed rate and bonds totaling \$1,600,000 were sold without competition. Nameoki township residents voted 1530 to 340 against a sanitary sewer proposal on which bonds would be sold privately.

12. East Side Levee Board reform legislation failed to pass the Illinois General Assembly, which also withheld action on a secret effort to get state permission for a \$5,802,000 non-referendum drainage bond issue. At earlier legislative commission hearings in the City and East St. Louis, levee officials sought added powers but other witnesses testified of the need for stricter rules on levee bidding, purchasing, hiring and work supervision policies.

13. A strike by Oil, Chemical & Atomic Workers at the Union Steel & Refining Co. neared six months in duration but long-term agreements were reached. Granite City Steel Co., Laclede Steel Co., General Steel Industries, American Steel Foundries and Dow Chemical Co.

14. The state legislature defeated an unsuccessful attempt to increase the motor fuel tax. It failed to increase the motor fuel tax although projects and forfeit matching federal funds. Legislators decided to submit to Illinois voters in 1966 revision of the taxation section of the Illinois constitution. They approved a statewide master plan for higher education, including a proposed network of junior colleges. They created a Department of Business and Economic Development and authorized formation of business development credit corporations. Partial public aid reforms were voted, workingmen's unemployment compensation laws were amended, some of the needed anti-crime bills were passed, conflicts of interest were studied, screening of scrap yards was required and foreign doctors were permitted to serve in hospital emergency rooms. The "open meeting" law was extended to governmental committee meetings.

15. Selection of Kathy Oros as Miss Illinois helped put Granite City "on the map," and extensive tourism promotion was started, with highway destination signs clarified. The Tri-City Regional Port District, Tri-Cities Chamber of Commerce, other industrial development groups, utilities and railroads accelerated their efforts to spotlight the thousands of acres of ideal plant sites available here. Madison industrial park utilization plans were considered. Development of needed harbor facilities at the northern end of the Chain of Rocks Canal was studied. The M. S. Kaplan scrap metal firm located here. The Granite City Industrial Center neared full occupancy.

16. A new Horseshoe Lake Area Commission was appointed and planned stepped-up efforts to establish a lake park. Further development of the Cahokia Mounds State Park was planned.

17. The Granite City school district authorized continued to delay use of higher tax rates authorized by voters, but construction helped bring its first \$10 million bond issue to completion. The city held the line generally against extreme tax changes. The Pontoon Beach village board eliminated municipal property taxes for one year.

18. Air pollution curbs received increasing attention, and cities and dump operators were ordered to halt burning at dumps south of Madison. A Granite City air pollution control board was appointed.

19. Increased opposition in Madison and Venice elections reflected growing citizen interest in governmental policies. Madison continued to be the lone holdout against urban renewal. Hours. Prospects grew for spirited competition in the upcoming Madison county primary, changed to June by a new state law. An alderman urged Granite City Democrats to "fight and fight" to avoid being "taken for granted" by state political leaders.

20. An SIU-SW state medical college was proposed, and SIU signed an agreement to conduct part of its nurse training at St. Elizabeth Hospital. Interest increased in establishment of a journalism department at SIU-SW. A new telephone exchange on Pontoon road was completed, and the East St. Louis & Interurban Water Co. and other utilities expanded their local facilities. Telephone rates were made more uniform.

21. The United Fund again went "over the top," including funds for USO services for American fighting in Vietnam. Record "Tree of Lights" Christmas basket funds were contributed.

22. A Horseshoe-Bend volunteer fire department was created.

23. A detailed survey of downtown business services was launched and a quarter-million-dollar grocery store in Nameoki road and Madison avenue was announced.

24. New Illinois Senate, Illinois House and Congressional districts were formed. In the case, local population growth resulted in decreases in the geographical size of the districts.

The busy year also brought many other developments. Madison county studied governmental building needs, marked time on a controversial airport proposal and planned constructive revision of its zoning laws. First independent voters of the county listed 37 suggestions for improved operating procedures, including tighter buying controls and more investment of idle funds.

A 15-year Boy Scout facility expansion program was begun. The Venite library was enlarged. Dow Chemical Co. continued its close association with space flight, some booms here ended. Paddlers launched a "bath and tennis club" expansion, home insurance coverage improvements were sought. Eagle Park Area installed storm drain pipes and culverts, the Madison County Economic Development Board marked the site of a new shopping center and Mississippi River trail in the Quad-City area broke all records.

Nineteen sixty-five was a year packed with activity which helped move the Quad-Cities forward to where it is today, the threshold of still further growth and achievement.

**50 YEARS AGO**

News From The Files Of

GRANITE CITY PRESS-RECORD

DEC. 31, 1915

Ray Ludwig, one of the local speedy roller skaters, won the Illinois amateur one-mile roller skating championship in East St. Louis. Louis Schmidt, another local boy, came in second.

Two weeks ago, young Ludwig won the five-mile championship at the Palladium Rink in St. Louis, with Schmidt also winning second place in that contest.

At a meeting of several local athletes held at Bergmann's hall, an athletic association to be known as the Granite City Business Men's Athletic Association was organized. Its purpose will be to hold athletic events at various intervals and to promote athletics.

Officers elected include Barney McCarthy, president; C. Candler, vice-president; Ned Richards, treasurer; Elmer Hill, secretary; and Edward Dehmer and Ivan Candler, directors.

The group has arranged a few entertainment for Jan. 7, to which all interested in athletics and sparring matches are invited. The roster will be open on that evening for members to sign. Several exhibition bouts will be held.

Miss Rosa Gaylord entertained several friends in her home, 2137 Cleveland blvd., with a party.

Those present were Stella McAnaney, Erma and Olga Rode, Kelly, Lucille Kelly, Blanche Zoller, Helen Watkins, Gladys Lynch, Mae Morgan, Lorna Griffin, Gertrude Thomas, N. E. Steinheper and Gertrude Bandy.

Miss Hilda Kohl, who is at home, among those present were Mr. and Mrs. Paul Sabo and family, Mr. and Mrs. Orville Brooks and family, Mr. and Mrs. Richard Ely and family, Frank Toth, Miss Carmen Stone and Mr. and Mrs. Merle Cheney and son of Troy, Ill.

Tommy Gushelf, 1111 Madison avenue, Madison, was host of a Christmas party at his home. Those present were Mr. and Mrs. H. H. Droege and Mrs. L. J. Droege, daughter, Lois, of Des Moines, Iowa, who came to the home of the latter's uncle and aunt, Mr. and Mrs. W. L. Ashlock, 1422 Sixth street, Madison, over the weekend.

Mr. and Mrs. H. H. Droege were hosts last night at one of the most charming parties of the holiday season when they entertained a group of friends in their home at 1330 East 27th street.

Tri-City Lodge, 1831 of the Odd Fellows, was host to a dozen of Madison county in the hall on Third street, Madison.

District officers were installed and the third degree was conferred on two new candidates. Those installed were Frank Hill, Madison, president; Robert Cunningham, Edwardsville, secretary; A. Morris, Venice, warrent; and Carl Wright, Granite City, chaplain.

District Deputy Cliff Henderson of St. Louis was in charge of the ceremony. The candidates were Emerson Williams of Madison and Kenneth Thurman of East St. Louis.

The Yuletide party of the A. A. B. Bridge club was held in St. Louis. A luncheon was given to Miss Dorothy Krauskopf, Mrs. Ivan Rellke, Miss Lorene Hommes, Mrs. Wm. H. Engle, Mrs. Art Willard, Mrs. Henry Winkelmann Jr., Mrs. Melvin Ethridge and Miss Marceline Benaud of East St. Louis.

Mr. and Mrs. O. W. Reitz of Venice entertained the following guests on Christmas Day: Mr. and Mrs. John Spinks, Mr. and Mrs. Mack Mullen and son of Mt. Sterling, Mo., Mr. and Mrs. Walter Coombs, Ted Jacobs, Miss Jessie Irene Williams and Miss Elmer Reitz.

Miss Martha Kaseberg, daughter of Mr. and Mrs. T. C. Kaseberg, of Rush Springs, Okla., attends the University of Illinois, spent the Christmas holidays at home with her parents and has been taking the guest of a several sister who lives in Kirkwood, Mo.

Ad-Ad-the-weekend Mr. Grocer and Mr. Butcher, here is what you want—a Delivery Truck, complete in every detail. Price complete at \$299. It includes truck body with loading space 43 inches wide by 63 inches long with black oil tank and back, back seats to roll up; a heavy wire screen sides; side curtains on front and back of seat to protect from electric headlights; and electric horn with push button on the steering wheel.

**25 YEARS AGO**

The following items were taken from the files of the Granite City Press-Record.

DEC. 30, 1940

Bruce Roman, son of Mr. and Mrs. Arthur Roman, who is a student at the University of Illinois, is spending the holidays with his uncle and aunt, Mr. and Mrs. Oscar Roman, in Mercedes, Tex.

Mr. and Mrs. Roy Massey and son, Roy Jr., Mrs. Fannie Greenman, Roy Greenman and Miss Lorraine, are spending the holidays with Mr. and Mrs. C. L. Massey in Jerseyville.

A preliminary meeting relative to organizing a home guard unit in Granite City was held by the Chamber of Commerce in this community. Those present were Mayor M. E. Kirkpatrick, James Anderson, Joseph Ranft, Robert Walters, J. A. Mueller Jr., Roy Holshouser, Elmer Barnett and Harry Grohmann.

The Happy Warriors continued to find game victories tough as they lost in the first round in the fifth annual Mount Vernon Christmas football tournament to Me Leansboro, 38-25, Thursday night. Fourteen teams are entered in the tournament.

Walter Rice, who is managing a shoe store in Champaign, Ill., spent the holidays at the home of his parents, Mr. and Mrs. Lee Rice of Iowa street. He previously lived in St. Paul, Minn.

Friendlier relations between Tokyo and Washington are being prepared by the appointment of Adm. Kichiburo Nomura as Japanese ambassador to the U. S. Admiral Nomura, former foreign minister, has long been known as one of the most outstanding supporters of the United States in Japanese official circles.

Mr. and Mrs. Virgil Ely, 2817 Marshall avenue, were hosts to a holiday dinner given in their home.

**2 GC Driver Licenses Revoked or Suspended**

Licenses of two Granite City drivers were revoked or suspended by Paul Powell, secretary of state.

Revoked was the license of Clifford E. Rice, 2438 Missouri avenue, for permitting fraudulent use of his license, and suspended was the license of Joseph D. Pulmar, 1712 Belmont avenue, for violating a restriction on the license or permit.

**County Jail Inmate Gets Card from President**

Frederick Kingsley, 41, of 24 Grandview, Madison, who is an inmate in the Madison county jail, has received a Christmas card from President and Mrs. Johnson.

The sheriff's office said that Kingsley had sent a greeting card to his first family. He is charged with taking the goods of a several sister who lives in Kirkwood, Mo.

## TODAY'S INVESTOR

BY THOMAS E. O'HARA

Chairman, Board of Trustees National Association of Investment Clubs

Q. Earlier this year I bought

Purex at \$12.25. It is now down to \$19. My broker said this is because it has been affected by tax

selling. What does he mean?

A. Tax selling is a method of disposing of stocks in order to write off losses in filing an income tax return.

Purex is an excellent illustration of a company whose stock might undergo tax selling at the end of the year. Investors who bought Purex early in the year found recently that the stock was selling for 30% less than they paid for it.

If such investors see another stock that they believe might rise in value as quickly as Purex, they recover, they are quite apt to sell, take their tax loss on Purex and invest in the second firm.

There is, of course, no guaran-

tee that the other stock will ap-

proach the level of the first. But it is not in itself a bad thing to have

indeed is there any assurance that Purex itself will recover

from its present slump.

But the person who makes a tax sale would reason that by selling the stock he would have a loss he could apply against this year's taxable income, and at the same time acquire a security that has a good chance for advance in price as the one he has sold.

Have you a question about investing? Write to T. E. O'Hara, National Association of Investment Clubs, Department 8, Box 1666, Detroit, Mich. 48231. Service under a stamped, self-addressed envelope. Editor of the monthly magazine, "Better Investing," he will be glad to send his opinion.

## THE FORM

Name and address must accompany each letter but will not be revealed if anonymity is requested. The use of 12 words will be given preference. All are subject to condensation and grammatical changes. Letters with obvious errors or lacking in good taste or fair play will be rejected or edited.

**MANY AIDED PARTY FOR CHILDREN OF STRIDERS**

To the Editor:

On Dec. 18 the Ladies Auxiliary of OCAW Local 7463 sponsored a Christmas party for children of the striking union members.

It was due to the kindness and generosity of the donors, listed below that we were able to do so. Our friends and contributors were:

Morris Chapman, Lance Callis, Rozzycki Relief, Morris Realty, Lake Real Estate, Bloodworth Real Estate, Holdings, etc.

Dr. Obert M. Lay, the contributors from the Blast Furnace Department and main plant of Granite City Steel Co., Bob's Motors.

Mr. Tindall, Ralph's Texaco Service Station, Serin's Service Station, Mike's Standard Station, Granite City Sheet Metal Works, Donald Hutchins, Sam Whitmer, Lueders Agency, Gordon's Market, Granite City Police Department, American Legion Post 307, Venice Fire Department, Charles Mader, Dr. B. Berman, Dr. M. Gerard Baggot, Lois McDowell, Marlene Taylor, Dr. Leslie G. Reed, Granite City Fire Department, Dr. A. J. Intriere, Mrs. Michael Doneff, Paul Sommers, Carl Buehler, Richard Hutchings, Service Station, Mary Cook, Kit Grindstaff, Black's Bakery, Bellefont Bakery Shop, George's Pastry Shop, Mrs. Sandoz's Bake Shop, Mr. and Mrs. John Rose, Richard Hamilton, business manager of the Blast Furnace, Fred Griffin, U. S. Steelworkers' Furniture & Hardware Co., Coast to Coast Stores, American Sales, Department Store, W. T. Grant Co., P. N. Hirsch & Co., Leader Department Store, Sav Mart, Grandpa's, Kowles, Schewe's Corner Confectionery, Slim's & Eilia's Confectionery, Green's Confectionery, R. E. Drug Stores, Clark's Super Gas Co., Wallace Confectionery, Grigsby's B-Rite Mkt., Snyder's Confectionery, Illinois Canteen, Station, Illinois Canteen, Auto Service, Chuck's Sinclair Auto Ser-

vice, Midtown Pharmacy, D & J Mobil Service Station, Venice Station, Granite City Shell, Miller's Service Station on Missouri avenue, Miller's Service Station on Adams street, Post Boy John's, A. J. Market, A. G. Gardner Super Market, Ramsey Market, Rock Road Cafe, Schermer Bros. Market, Kozzyak's, Tri-City Radio Service, Cogen Foods, Louis Fitter, the Kroger Co., Schermer's Men's Store, the B. F. Goodrich Co., Fredman Bros. Furniture Co., Bob's Flowers, Ford's Flowers, Herring Floral Co., Geo. Willis Flowers, Home Nursery Greenhouses and all other Granite City Steel Co., Bob's Motors.

Many of you have been thanked personally and if for some reason we have missed your name, please know that we do appreciate your help.

Other contributions that should be acknowledged are: Black's Bakery for baking the hams free for the party, Johnny Lewis' Market for the donation of coffee for the party, the Salvation Army for their offer of baskets to the strikers and the Op-Units for their offer of Christmas trees to anyone needing them.

We also want to thank Cecil Martin, International Representative of the OCAW, Tommy Ausby, president of OCAW Local 7463, and R. D. Ables, a good friend of the Local, for their words of greeting.

It's true if picture is worth a thousand words and I wish I had a picture of the children so all could see what their kindness

The happy faces, smiles and twinkling eyes might in some way repay them. To all from the men, women and especially the children, we wish you the very best in the New Year and our prayers.

Sincerely,  
MRS. ANN SMITH  
Vice President, WACO's Auxiliary of OCAW, Local 7463.

## HOLIDAY GUESTS

Mr. and Mrs. John McKee and son, Terry, 2641 Circle drive, entertained all of their six children and their families over the weekend with holiday festivities.

They were Mrs. Donna Perry and children, Linda and Kristy, Mr. and Mrs. William Rowden and children, Ronnie, Stanley, Twila and Della of Bertha, Mo. Mrs. Ellice Fitzpatrick and children, Cindy, Chuck, Clint, Cole and Cathy, of Maple, Mo. Mrs. Arno Mrs. John E. McKee and children, Sharon, John, Jim and Bill, and Mr. and Mrs. Ronald McKee and daughters, Debbie and Denise, who are local residents.

Their fourteen-year-old son, Terry, returned home with his sister, Mrs. Donna Perry and Mrs. Nadine Rowden, to vacation there until the New Year's weekend.

Mrs. Neva Ward and daughter, Carol, of Success, Ark., were weekend guests of her mother, Mrs. Laura Walton, 2040 Fourth street, East Madison, and other relatives in this area.

Mrs. Melba Mehlis and children, Frankie and Janis, and Mrs. Walton accompanied Mrs. Woodard home Monday morning and returned to their homes here Wednesday.

## MORE ABOUT

## Venice May Seek

four railroads whose tracks must be relocated as a result of the underpass plan. The city council now has it share of the cost, approximately \$420,000. The railroads will pay about \$180,000 and the state will pay the balance.

The ICC order for construction of the underpass also ordered the closing of Kerr street in Venice, eliminating the only detour route available when traffic block the Broadway crossing for long periods.

Mayor Lee said that if he is not assured that work will start on the underpass project in 1966, the city will file a petition with the ICC seeking permission for reopening of Kerr street until construction work becomes imminent.

He pointed out that there is "no point in keeping Kerr street closed until work on the project can get underway." The mayor said that in keeping the street closed, traffic jams on Broadway would be increasingly more difficult because of the elimination of this detour route.

## MORE ABOUT

## Madison Recruits

cit that city recommendations on street classifications have been forwarded to the state highway division in French Village.

After studying a preliminary survey map, the city recommended that Madison avenue be designated as a primary thoroughfare; State, 13th and Elizabeth streets and Washington and McCambridge avenues as secondary streets; from 14th and State streets to the industrial complex of Granite City Steel Co. as industrial access streets; and Rhodes, Harris and Farish streets as access routes to the city's industrial park.

The purchasing commission was instructed to seek bids on purchase of a new police patrol car, with trade-in of squad car No. 13.

## 'Tree of Lights' Donations Exceed \$6000 Goal by \$1790

Contributions to the Salvation Army's 1965 "Tree of Lights" drive, which provided 450 Christmas food baskets, numerous toys and articles of clothing to needy Quad-City families, have reached a total of \$7790, it was announced today by Harry R. Johnson, campaign chairman.

In congratulating area residents and organizations for their fine efforts in behalf of the fund, the chairman reported that the total amount exceeds this year's goal by \$1790. The figure represents \$3222 in actual cash donations, plus groceries and toys valued at \$2468, he added.

L. Ronald Gorton, local Salvation Army commander, said the largest quantity of canned goods

and groceries was contributed by Retail Store Employees Union, Local 435, valued at \$750, followed by E. A. Gies Lodge 1128, whose donation of canned goods was valued at \$650.

Toys estimated at \$300 were provided by local furnace employees at Granite City Steel Co., while members of the steel company's Management Club contributed toys worth \$101.

Groceries and other gifts with an estimated value of \$360 were obtained through the Girl Scout "Festival of Giving." Lt. Gorton said, and further quantities of canned foods, with the equivalent value of \$25 each, were donated to the program by Edray Foods and Schewe's Market.

## HOLIDAY REUNION

Mr. and Mrs. Harry V. Miller, 2122 Edison avenue, entertained guests during the Christmas season, celebrating a family

Those present were Mr. and Mrs. Arthur Miller, Kenneth Miller, and Mrs. Miller. Mr. Miller, all of Poplar Bluff, Mo. The group also visited the daughter and son-in-law of Mrs. Arno McKee, and Mr. and Mrs. Welly and children, 2240 Lincoln avenue.

Mr. and Mrs. Glen Miller and daughter, Judith Lynn, of Elgin, Ill., arrived late Monday evening, being delayed by a snowstorm.

Rev. and Mrs. Reed Burkhardt arrived home Sunday from Milan, Mo., where they spent a three-week vacation.

## WIGGERS HOST TO FELLOWSHIP CLASS

The Fellowship Class of Second Baptist Church met Tuesday evening at the home of Mr. and Mrs. Howard Wigger. Scripture was read by the president, Ronald Yates, and opening prayer was given by David Newberry.

The class decided to "adopt" a young person each month from the "Young People Away" program of the Sunday school. A Bible quiz closed the program. Those present were Bob Lewis, teacher, and David Newberry, Rollin Yates, Gary Wigger, Rev. and Mrs. Reed Burkhardt and the hosts, Mr. and Mrs. Wigger. Closing prayer was given by Gary Wigger.

## BUTTONS, BOWS MEET

The Buttons and Bows club met Wednesday afternoon in the home of Mrs. Robert Brockway, 2321 Grand avenue.

Dinner was served to Mesdames Frances Westbrook, Cecilia Holman, Dorothy Coy, Louise Potillo, Hazel Jones, Doris Steward, Esther Papp, Bernice Hall, Mary Glesche and guests, Mary Ann Kaminski, Roberta Crawford and Dorothy Hatfield.

The home was decorated for Christmas, with a large tree the focal point.

## MORE ABOUT

## Two Years Probation Granted Madison Man

Stanley Mack Jackson, 1513 Market street, Madison, was granted two years probation in Madison county circuit court at Edwardsville Wednesday. He had pleaded guilty to an attempted burglary of a service station.

Another probation hearing is scheduled for Jan. 7, for Leroy Davis, 19, of Eagle Park Acres, who with James Jennings, 21, of Alton, had been indicted on charges of robbery and deviate sexual assault of two University of Missouri at Rolla engineering students near the Midtown Country Club in Eagle Park Acres last summer.

Willard Portell, circuit clerk, meanwhile announced that the county grand jury is to be recalled on Wednesday to begin deliberations of other criminal charges.

## Pontoon Beach & Stallings

MRS. MABEL KENNEDY  
3833 Lake Street  
WE 1-4182

Mr. and Mrs. James Edmonds and children, Steven and Debra, of Memphis, Tenn., left Sunday after spending a week visiting his parents, Mr. and Mrs. Otis Edmonds, his sister, Miss Twila Edmonds, and other friends and relatives.

Oscar Hodshire of Ava, Ill., left Sunday after spending the weekend with his son and daughter-in-law, Mr. and Mrs. Hodshire.

## GOLDEN ANNIVERSARY

Mr. and Mrs. Irvin South, Mr. and Mrs. Roll Phillips, Miss Starrett Phillips and David Johnson motored Sunday to Jackson, Mo., where they attended an open house celebrating the fifteenth wedding anniversary of Mr. and Mrs. Harry Skinner of Miller, Mo., held at the home of their son and daughter-in-law, Mr. and Mrs. Warren Skinner.

Mrs. Harry Skinner is the sister of Mrs. South. After the open house, they went to Perryville, Mo., to visit Mrs. South's other sister and brother-in-law, Mr. and Mrs. John Lane. A buffet supper was served.

Mr. and Mrs. Frederick Kennerly and daughter, Sheila, of Rockford, Ill., spent Monday night visiting Mr. and Mrs. Mil-

## Certificate for Moerlein

David L. Moerlein, who is home on leave from Brooks Air Force Base in Texas, visiting his parents, First Ward Alderman and Mrs. Charles W. Moerlein, 1316 Edwardsville road, has just received a certificate of appreciation from the U. S. School for Volunteers for his contribution to scientific knowledge made by serving as a volunteer subject in "Medical Psychology" training from Sept. 22 to Dec. 17.

## Fails to Pay Fine

Ted Sherry Jr., 22 of 251 Washington street, was taken into custody by police at 4:55 p.m. Monday for failure to pay a fine and costs.

## Sewers for Unserved Areas Of GC to be Outlined Jan. 10

Sanitary sewers for all unserved areas of Granite City in 1966 were pledged Monday night by the Special Pollution committee headed by Alderman Moerlein.

A basic outline of the proposal and distribution of petitions for circulation in the areas of the city without sewers are planned at a special meeting of the committee set for 7:30 p.m. on Monday, Jan. 10, in the third floor council meeting room at the city hall.

Moerlein said he has no cost estimates at present, but the proposal for construction of the sewer lines for such areas as North Granite, portions of West Granite and the Mercer drive section of the Nameoki area can be financed with a revenue bond issue.

City ordinance requires all Granite City residents to be connected to sanitary sewers, but in several areas the city has failed to provide trunk lines.

These include the North Granite area, which was annexed several years ago, and a number of older sections of the city—portions of Cayuga street, Rock plant.

## Donations Total \$5000

## Army Depot Employees Aid 41 Needy Families

Food baskets, toys, clothing and cash gifts, valued at more than \$5000, were distributed prior to Christmas Day through contributions of Granite City Army Depot employees.

The "Yuletide-giving" program, sustained by depot employees for several years, was carried out in addition to numerous donations from various departments to the Salvation Army's annual "Tree of Lights" campaign. Gifts were transported and delivered in person by the depot Col. Charles B. Schweizer, depot commanding officer.
